The asterisked items (*) require further justification before perm	nanent confidentiality will be allowed. These also currently require
review by the recent under their permit But-Ask policy before the	e grant is issued and can delay completion of an application. Further
justification should be added to the note above. One such exam	ple for a potted device would be: "The EUT is FULLY potted using a

non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
