NEW **New device** Add new device;

Local Connect device with the Wi-Fi smart phone connected;

Remote Control online device by remote;

Offline Device is offline and it is out of control. Please check the network connection.

■ Instruction of LED indicatoror

• **Blue indicator flashes quickly:**
Waiting for configuration (device is under factory state or reset). Under this circumstance, you can tap 'Add device' in APP and it guides you to finish the configuration.

• **Blue indicator flashes slowly:**
Network is down, power supply is down and then recovers, or during the configuration process.

• **White indicator flashes once:**
Transmitting infrared signal (it occurs when learning the infrared codes or controlling appliance).

■ Note :

• Do not use non-ASCII characters in Wi-Fi name or password. It may cause configuration failure. The device supports Wi-Fi of 2.4G 802.11 b/g/n only.

• Please place the device on open place. Please point remote to the top of the device during learning and we suggest the distance is less than 1m.

• Please configure the device according to the user guide. If you encounter problems, please contact our authorized distributors or our support team.

• All the technical details are subjected to the actual product performance.
