

# Gyration Air Mouse

## Go Plus Quick Start Guide

GYM1100A

### Limited Warranty

Gyration® provides a one year limited warranty for all of its products against defects in materials and workmanship.

During this period, Gyration® will repair or replace any product which proves to be defective. However, Gyration® will not warrant any product which has been subject to improper handling, abuse, negligence, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Gyration® and products where the sealed assembly trace has been broken.

If you discover a defect, Gyration® will, at its option, repair or replace the product free of charge, provided you return it during the warranty period with freight charges pre-paid to Gyration®. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package. you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

### Getting Started

- 1 Remove Insulator tab.

Press the release button on the bottom of the mouse and remove battery pack. Remove and discard the plastic insulator tab. Replace Battery.

- 2 Plug one end of the included USB charging cable into the desktop charger and the other end into an available USB port. Place the mouse on the charging cradle and charge for 4 hours. The LED will remain RED while charging.

- 3 Insert the USB receiver into an available USB port on your computer.

- 4 Press the connect button on the bottom of the mouse.

- 5 The computer will automatically detect and configure the Air Mouse.

- 6 Visit [www.gyration.com/download](http://www.gyration.com/download) to download the MotionTools software and enjoy gesture recognition for your favorite applications.

#### FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### IC Warning

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSSI(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
