**FASTNET**

**TED'S 'GET TO THE POINT' GUIDE  
FOR THE EAGER & IMPATIENT**

## IN TED WE TRUST

If you have any questions or problems, please do not panic! Ted's audio experts are on hand to provide the very best service, as you would expect, at [tedbakeraudio.com](http://tedbakeraudio.com).

aptX \_\_\_\_\_ © 2013 CSR plc and its group companies. The aptX® mark and the aptX logo are trade marks of CSR plc or one of its group companies and may be registered in one or more jurisdictions.

Bluetooth \_\_\_\_\_ The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks is under license. Other trademarks and trade names are those of their respective owners.

## **QUALITY SOUND**

Fastnet uses aptX® technology to deliver exceptional sound quality, as you would expect, over Bluetooth® and features an integrated mic to use as a speakerphone.

## **FINELY SELECTED MATERIALS**

Beautiful and rugged brushed aluminium and deluxe, genuine leather.

## **SMART DESIGN**

Fastnet's sealed enclosure design provides tighter, more accurate sound reproduction, and its clever folding door protects when travelling, and acts as a convenient stand.

## **SIMPLE TO USE**

Simply pair with a Bluetooth®-enabled device to control, plus built-in rechargeable Li-ion battery (lasts around six hours) makes Fastnet the perfect travel companion.

### **POWER BUTTON**

On: Push x1 & wait for LED to light up.

Off: Push again, to switch off.

Ted's top tip: Fastnet will either connect to a device in memory if available for connection, or will wait to be paired .

### **MIC**

When connected to a mobile phone via Bluetooth®, calls will be directed to Fastnet's in-built mic.

### **VOLUME**

Scroll upwards/downwards to control.

Ted's top tip: Set volume on your device to maximum, then control sound from Fastnet.

### **MUTE**

Short press to mute/unmute voice during calls.

#### **PAIR**

Press for 2-3 seconds, then turn on Bluetooth® on your digital device. Whilst pairing, LED flashes blue twice every 2 seconds, then solid blue when paired. Ted's top tip: You cannot pair devices when playing music. To re-enter pairing mode, wait until LED flashes blue twice every two seconds, then long press until LED flashes blue on/off. Ted's top tip: Short press Pair to answer, and again to end, a call. Long press (2-3 seconds) to reject an incoming call.

#### **PAIR + MUTE**

Press together to clear paired devices memory.

#### **AUX LINE IN**

If you prefer wires, connect a 3.5mm line-in stereo cable here to your music player.

#### **MICRO USB**

Connect the micro usb into socket on back. Plug other end into power source.

## LED DISPLAY

### GREEN

Solid \_\_\_\_\_ mic muted

Flash ..... every 2 seconds = incoming call

x1 Flash ..... unmuted

### BLUE

Solid \_\_\_\_\_ Bluetooth® connected  
+ music streaming
