Rear View	
Left Side View	

View	Photographs
Right Side View	 A photograph showing the right side of the ResMed AirSense 11 CPAP machine. The device is primarily white with a black top section. A clear plastic water chamber is attached to the right side. The front of the machine features a circular power button and a small display screen. The machine is resting on a light-colored wooden surface.
Top View	 A photograph showing the top view of the ResMed AirSense 11 CPAP machine. The device is white with a black top section. A clear plastic water chamber is attached to the right side. The front of the machine features a circular power button and a small display screen. The machine is resting on a light-colored wooden surface.

View	Photographs
Bottom View	 A photograph showing the bottom view of a ResMed Air 11 CPAP device. The device is white and black, with a clear plastic protective case. The bottom panel is black and features the 'Air 11™' logo in white. Above the logo, there is a white horizontal line. The top of the device has a white circular area, likely a filter or sensor. The device is placed on a light-colored wooden surface. The photograph includes technical specifications and regulatory information printed on the black panel.
