

RE1 Antenna Information

The antenna complies with the antenna requirements of paragraph 15.203 of the FCC rules. The antenna is permanently attached and is uniquely coupled to the radio transceiver via a passive impedance-matching circuit. The antenna is not replaceable. The equipment is not designed for use with any other antenna and there is no provision for connecting any other antenna.

Antenna Type: Chip Antenna
Antenna Manufacturer: Johanson Technology
Antenna Part Number: 2450AT45A100E
Average Antenna Gain: 1 dBi
Peak Antenna Gain: 3 dBi

Clear photos of the chip appear in the External Photos.
