

Class II Permissive Change Letter

Date: December 22, 2017

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road Columbia, MD 21046

Att: OET Department

FCC ID: 2ACJF-FGW-GR240BG / Original Grant Date: 10/29/2017

Subject: Application for Class II Permissive Change

Regarding FCC Permissive Change Policy guidelines identified in KDB 178919 D01, please consider this request for a Class II Permissive Change for FCC ID: 2ACJF-FGW-GR240BG. This is a software change filed under the following conditions:

- a) U-NII2 A, U-NII2 C and DFS are enabled by embedded software/firmware.
- b) The software/firmware change will be applied exclusively by the manufacturer and no third party will have software, or configuration control to program the device out of compliance of the technical rules under which it has been certified.
- c) No hardware changes have been made.
- d) The equipment class remains the same.
- e) There are no RF exposure changes because there is no increase in the output power rating on the new U-NII 2 frequencies.

The tests were performed at Intertek Menlo Park and found to be compliant with the FCC specifications.

A handwritten signature in blue ink, appearing to read 'Ricardo Cunha', positioned above a horizontal line.
