 <p>TRUE WIRELESS EARBUDS</p>	<p>1 Using your True Wireless Earphones Charge the earbud and case first. Make sure charging case and earbuds are fully charged. STEP 1 Turn off the Bluetooth function from your music device. E.g., Mobile phone or music device. STEP 2 Take out the earbuds from the charging case after they have been charged. The earphones will automatically turn-on. You will hear "Power On". Wait 5 seconds so that both earbuds can connect to each other. After the dual earbuds have connected to each other, you will hear a tune to suggest that both earbuds are paired successfully, and the status of the right earbud will have blue light and red light flashing alternately but Left earbud will have very slowly flashing blue light. STEP 3 You can now turn on the Bluetooth function of your mobile phone or audio device. Search and select BT899 on your device and connect. When the earbuds are connected with the device successfully, you will hear "Connected" and earbuds will have very slowly blinking blue light. If you turn off the bluetooth function on your mobile phone, you will hear "Disconnected", and the status of the Right earbud will have blue light and red light flashing alternately but Left earbud will have very slowly flashing blue light. The pairing mode between both earbuds and device will remain for about 5 minutes. After that earbuds will turn auto-off if no device connection in 5 minutes, and you will hear "power off". *After the initial settings, both earphones will auto pair with your device directly and you can skip Step 1 and 2. * Fig 1 (shown on the image).</p> <p>2 Button Function On/Off Turn on : Long press both left and right earphone (see Fig 1) for 3 second to turn on earphones. Long press left or right earphone top button (see fig 1) for about 6 seconds, to turn off earphones Answer / Hang Up When there is an incoming call, short press the top button (Fig 1) on the left or right earphone to answer the phone (see Fig 1 on the image). During the call, the earphones will slowly flashing blue light. short press the top button (Fig 1) on the left or right earphone to end the call. * When playing music, and there is an incoming call, music will be auto-paused and auto play when end the call. Reject / Call Back When coming call, long press left or right earphone about 2 seconds to refuse the call. (fig 1) Three-click the right earphone to resume back to the last call, three-click the left earphone to open the voice assistant. Play / Pause Music To pause playing music, short press either the left or right earbud (Fig 1) to pause. To continue playback, short press either the left or right earbud (Fig 1) to continue playback. If one of the earbuds have run out of battery, the other one will continue to work until it runs out of power also. Last / Next Song Control When playing music, double-press the left earphone (Fig 1) to switch to the Last song. Double-press the right earbud to switch to the next song.</p> <p>Charging the case and earbuds : Charge the charging case (Fig 2) The charging case (fig 2) charges the earbuds. It is important that the charging case is recharged. To do this, insert the provided USB charging cable to charge the charging case (Fig 2) with a USB power adapter.</p>	<p>The LED light on the case will keep on flashing when it is charging. When fully charged, the LED lights will keep on and still. Charging the case will take 5 hours to fully charge the case but charging amount times may vary depending on battery status. Note: When there is no charge left on the charging case, the case will start to flash to announce low battery and then turn off completely.</p> <p>Charge the earphones (Fig 1): The charging case should be fully charged and have sufficient power before it can charge the earbuds. Put the earphones into the correct position on the charging case (fig 2) for charging. Turn off the earbuds by long pressing the top button of both earbuds (fig1) for 6 seconds before placing them into the case. If the earbuds are not placed securely into the case, it may not charge. Please take out the earbuds and re-insert them in the case. Also make sure the lid is properly closed so that charging the earbuds can start. Using large earpads could also obstruct the closure of the case, and so may need to be removed. When the Earphones are charging properly, the led light on the earphone and the charging case will also turn on and still to confirm that charging has started. When the earphones are fully charged, the led light on earphones and charging case will turn off. If earphones are on low battery, you will hear a tune to announce low battery and the earphones led will start to flash quickly. When the earphones run out of battery, you will hear "power off", and the earphones will be auto off. Note: When the charging case runs out of the battery, it is important to Turn off both earphones before charging them in the charging case. (Turn off by pressing both earbuds (see fig 1) for 6 seconds. If there is no power on the charging case, the earbuds will not auto- turn off when they are put back into the charging case. Therefore, the earbuds need to be manually turned off by pressing both the earbuds for 6 seconds simultaneously before putting back to the charging case. Charge the charging case (fig 2) so that the earbuds can be recharged as well.</p> <p>3 Frequently asked questions Bluetooth earbuds cannot turn on? 1) You can check if earbuds is with power or not? if not, please fully charge both earbuds before turning it on. (Also charge the charging case as well to make sure there it has enough power to charge the earbuds) 2) Make sure the earbuds are properly charged by placing them securely into the charging case (fig 2). 3) Turn on the earbuds please long pressing both earbuds for 3 seconds (fig 1)</p> <p>Bluetooth earbuds signal is unstable ? 1) Restart the Bluetooth earbuds by turning them off and then on. To do this long press (fig1) for 6 seconds to turn off and long press 4 seconds to turn on again. 2) Please kindly check the compatibility and calling communication quality of the mobile phone. 3) The distance between both earbuds should be no more than 1.5 meters (4 feet) from the earbuds 4) The distance between both earbuds should be no more than 0.5 meter (2feet) apart 4) Interference from other devices or areas (crowded areas) may cause some signal instability. Move to another area to see if it improves.</p> <p>Why can't I hear voice / playback? 1) Please kindly check if your playback device volume is on or on mute status. 2) Please kindly check if Bluetooth earbuds and phone are connected well. Resetting the device may be necessary (see below on how to reset) 3) Check the distance between earbuds and phone is too.</p>	<p>Reset : If the earbuds are not pairing correctly or continue to have issues, please delete the earbuds from your phone by going to the phone's Bluetooth settings and removing it. Then follow Steps 1-3 on the first page of this manual to re-pair your earbuds to your phone device. If earbud function is are not working, then reset the earbuds by long pressing both earbuds (fig 1) for about 8 seconds. Then follow Steps 1-3 on the first page of this manual to re-pair your earbuds to your phone device. If after some time, the earbuds stop charging, try to use a dry cotton swab to clean the bottom charging points on the earbuds and the inductive pins on the charging case to remove any dusts and sweat.</p> <p>Specifications: *Model: BT899 *Bluetooth Version: 5.3 *Power Input: DC 5V *Earphone Working Time: About 6 hours at 50% volume *Earphone battery capacity: 40mAh+40mAh=80mAh *Charging Case battery capacity: 400mAh *Support a2dp/avcpt/avdp/ivocp/hfp/lpp/ipp/amp/att/gatt/irfcom/missp/l2cap profile</p> <p>Limited 90-Day Warranty: Sentry warrants this product to be free from defects in materials and workmanship for 90 days from the date of original purchase. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation." FCC ID: 2ACF4BT899 Model #BT899 "NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."
