

QUICK START GUIDE

INTRODUCTION TO THE DESKTOP

You must log on to your Microsoft account before the start up application can run.

RUNNING PROGRAMS

Select the Start  button on the desktop or keyboard to open the Start Menu. Applications and programs are displayed on-screen as widgets. Click on the widget to open the program.

OPERATING THE START MENU

To pin a program to the Start Menu, right-click the program and select "Pin to Start" to add the program to the Start Menu. (Screen 1)

To remove a program from the Start Menu, right-click the program and select "Unpin from Start" to remove the program from the Start Menu. (Screen 2)

(Screen 1)

(Screen 2)

FORCE RESET/SHUTDOWN

If the laptop freezes or is unresponsive, you may press and hold the Power button for 8-12 seconds to force the laptop to shutdown.

TECHNICAL SPECIFICATIONS

- **Screen Size:** 11.6"
- **Resolution:** 1920 x 1080
- **Panel Type:** IPS
- **Operating System :** Windows 10 Home
- **Battery:** 4000 mAh Lithium
- **Processor:** Dual Core
- **Processor Frequency:** 2.6 GHz
- **Storage:** 32GB*
- **Memory (RAM):** 4GB*
- **Expansion Slot:** Micro SD
- **Micro HDMI:** 1
- **WiFi:** Compatible
- **Front camera:** 2 MP
- **Rear camera:** 2 MP
- **Bluetooth:** 4.0

FCC PART 15 DISCLAIMER:

This device complies with part 15 of the FCC rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

15.19 Labeling requirements.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to the user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information for the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio / TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Specific absorption rate (SAR):

This Tablet PC meets the government's requirements for exposure to radio

waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

The FCC Statement of Exposure to RF and the SAR limit for the United States (FCC) is 1.6 W / kg average for each gram of tissue. This device was tested for typical operations of use on the body, with the back of the Tablet PC at 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a distance of 0 mm between the user's body and the back of the Tablet PC. The use of belt clips, covers and similar accessories must not contain metallic components in their assembly. The use of accessories that do not meet these requirements may not meet FCC RF exposure requirements and should be avoided.

Functioning in the body

This device was tested for typical operations of use in the body. To comply with RF exposure requirements, a minimum separation distance of 0 mm must be maintained between the user's body and the telephone, including the antenna. Third-party accessories such as belt clips, covers and similar accessories used with this device should not contain metallic components, accessories that do not meet these RF exposure requirements and should be avoided from use on the body. Use only the supplied antenna or an approved antenna.
