Accessibility

Accessibility

To use the accessibility options, open Settings > System > Accessibility.

- Speak Passwords uses spoken feedback to describe events, such as notifications, and the results of your actions, such as opening an app.
- Text to speech output: Settings > Accessibility > Text-to-speech output.

Listen to an example: Select this option to hear a short demonstration of speech synthesis.

• Touch and hold delay. This setting allows you to adjust the amount of time required for your device to notice that you're touching an object on the screen. Users with limited dexterity might prefer to use a longer touch and hold delay.

Go to **Settings > Accessibility > Touch and hold delay.** Select Short, Medium, or Long.

You can also try magnification gestures, which allow you to zoom in and out, as well as temporarily magnify what's under your finger.

To try this, go to Settings > Accessibility > Magnification gestures.

Messaging

Messaging lets you send, promptly reply or reply at a later time to important messages from your contacts in any of your SIM cards installed on your device. You can also email your message threads or conversations to others to keep them in the loop.

- Sending or replying to messages

 1. From the Home Screen, tap messaging icon. Then tap
 2. In the "To" field, enter the number or tap
 to select a contact from your list.

 3. Start composing your message in the Type message field.

 4. When you're done, select the SIM account where you're going to send your message from.

Phone

You can place calls from the Phone app, the People app, or other apps or widgets that display contact information. Wherever you see a phone number, you can usually touch it to dial

To place a call to one of your contacts:

- Touch the Phone icon on a Home or All Apps screen.
 To choose someone to call, scroll or search. If the keypad's in the way, touch the Back button to lower it.
 To place a call, touch the contact's name.

To view recent calls, touch the \bigcirc call log icon at the bottom of the screen. To use the keypad, touch keypad icon.

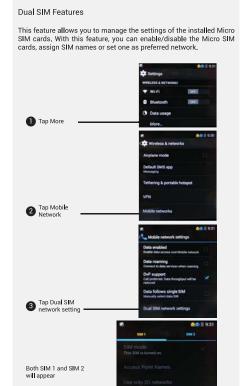

Gmail

Use the Gmail app to read and write email from any mobile device. To open it, touch the Gmail icon on a Home or All Apps screen.

To change your settings , add an account, or get help, touch the menu icon or button.

TIP: If you're using Microsoft Exchange, you need to set up the Email app, which is available in all Apps.

Quick Settings

Use Quick Settings to easily access Wi-Fi settings, manage display brightness, open the main Settings menu and more. To open Quick Settings, swipe down from the top of the screen with two fingers.

If you have a signal but no Internet connection, the bars indicating the strength of the Wi-Fi or mobile signal turn orange.

You can also set Auto Rotate from Quick Settings to lock or unlock automatic screen rotation.

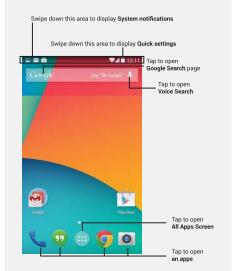

Lock Screen

- 1. Go to Settings > Personal > Security > Screen lock 2. Touch the type of lock you'd like to use.

Home Features

Home screen

Receive all the reminders for any important events, apps and system updates and text messages from people close to you, right from your Home screen.

Swipe the Home Screen to the left or right to display the extended $\mbox{\sc Home}$ Screen.

Organize your Home screen

To change the wallpaper for your Home screens, touch & hold the background.

To add an app icon to a Home screen :

- Go to the Home screen where you want to place the app.
 Touch the All Apps icon.
 Swipe from right to left, if necessary, to find the app you want.
 Touch & hold the app until the Home screen appears, slide it into place, and lift your finger.

- To add a widget to the Home screen
 1.Touch & hold the background of any home screen
 2.Touch widgets.
 3.Touch & hold the app until the Home screen appears, slide it into place, and lift your finger.

To move an app or widget to another position :

- Touch & hold the icon.
 Slide your finger to the new position.
 To move between Home screens, slide toward the edge of the screen.
 To bump another icon out of the way, slide slowly into it.
 Lift your finger.

To create a folder, slide one icon quickly over another.

To name or rename a folder, open it and touch its name.

Basic Features

Set up your device

When you first turn on, you'll see a Welcome screen. Choose the language you want and touch Start or the $\,\,$ Start icon

IMPORTANT: To complete the setup process, you must have a Wi-Fi or mobile Internet connection.

When prompted, you can sign in with your Google Account or create one at that time. You can also choose to skip this step and create one later

When you sign in with a Google Account, all the email, contacts, Calendar events, and other data associated with that account are automatically, synced with your device. If you have more than one Android device, they are all kept in sync

For example, if you change a friend's phone number on your phone, that change also appears on your tablet and on any computers where you're logged into your Google Account.

If you have multiple Google Accounts, you can add others later from Settings > Accounts > Add account

Android Capacitive Button

At the bottom of every $\rm JOI_{ns}$ Phone 5 screen, no matter what you're doing, you'll always find these three buttons :.

Back
 Opens the previous screen you were working in, even if it was in a different app.

Home
Opens the central Home screen. Once you back up to the Home screen, you can't go back any further.

Recent apps
Opens a list of thumbnail images of apps you've worked with recently. To open an app, touch it. To remove a thumbnail from the list, swipe it left or right.

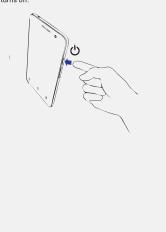

Turning on/off functionality

Turning your device on
Press and hold the power button until your device starts up.

Turning your device off

- If your screen is turned off, press the power button to turn it on. If your screen is locked, unlock the device screen.
 Press and hold the power button, then when prompted, tap Power off then tap OK.

Sleep mode
To put your device in sleep mode, press the power button once until the screen turns off.
