- Do not break the connection suddenly when this product is conducting formatting, uploading or downloading operations, otherwise there may be program errors.
- This company will not undertake any responsibility for any memory loss due to product damage, repairing or other reasons.

- Do not disassemble this product by yourself and do not clean the surface of this product with alcohol, thinner or benzene.
- Do not use this product in a place where the using of electronic device is prohibited, such as on a plane.
- Do not use this product while driving a car or walking on the street, otherwise traffic accident may occur.

※ This Company reserves the right to make any improvement on this product. No further notice will be provided on any variation on the specification and design of this product!

★ (This product has no water-proof function)

Main functions:

- 7 inch HD TFT capacitive screen, 1024*600 definition;
- Support built-in 0.3 Mega front camera and 2 Mega rear camera (optional);
- Support microphone recording function.
- Support USB mouse, keyboard, bluetooth headset, USB peripherals, operation more convenient, more powerful.
- Support OTG function, support U-disk, portable hard disc by OTG to transfer data. (While connecting to portable hard disc, DC power must be connected to supply power for the product; otherwise the tablet PC will get crashed due to insufficient power supply)

- Multiple network access to the Internet. Supporting Wi-Fi, you can enjoy the internet life anywhere, anytime.

- Gravity sensor (G-sensor), in addition to the horizontal, vertical screen switch, you can also install various software to extent this function, such as turning the text, switching songs, and funny games, etc.

- With Google Android intelligent operating system, abundant software extension function, you can you're your personalized space with apks by yourself.

- Supporting apk installation and application, abundant software can be downloaded and installed from Google player store in your MID or from your PC to download from the Internet.

- With this product, you can easily have business and entertainment via abundant applications, such as E-Mail, word, website browsing, news, instant messaging, financial, blog, games online, video online, stock market , weather report , mobile TV, maps, fun software, etc.

- Supporting

MP3,WMA,MP2,OGG,AAC,M4A,MA4,FLAC,APE,3GP, WAV etc.

- Supporting full HD video decoding Mpeg1, Mpeg2, Mpeg4 SP/ASP GMC, XVID, H.263, H.264 BP/MP/HP, WMV7/8, WMV9/VC1 BP/MP/AP, VP6/8, AVS, JPEG/MJPEG etc.

- Supporting JPG, JPEG, GIF, BMP, PNG

- Supporting TF Card, with capacity up to 32GB.

- Personalized settings-freely adjustable brightness, key tone on or off, changing wallpaper and so on.

- Supporting multi-languages.
- More functions could be added by Firmware updating

Appearance and Buttons:

Definition:

1. USB Port: Micro USB 5 Pin data cable supports external

confirm.

10-12. Accessibility

10-13. Developer Options

10-14. About Tablet

You can check legal information, model number, Android version, Baseband version.

11. Trouble Shooting

1. The tablet turns on slowly at first time

- After system update, factory restore, it takes about 2-3 minutes to install some pre-install applications at the first time, then starting time will be quicker.

2. Unable to connect WIFI or weak signal

- Ensure the Network is working properly.
- Ensure the user name and password is correct.

- Ensure the internal antenna is not blocked.
 - Ensure the tablet is within the proper distance of the Network and there is no wall or other obstructions between.
3. Unable to connect 3G or weak signal
- Ensure the 3G USB Dongle is connected to the tablet correctly and the SIM card with enough fees to access to the Internet.
 - Ensure the 3G USB Dongle is among the models supported by the tablet.
 - Ensure you are in an area that gets access to the signal
 - Check if the “Wireless and Network” is correctly set.
4. Indicator light does not turn on after 3G USB dongle is plugged in.
- Check whether the OTG cable is connected properly, 3G USB Dongle can work well, 3G connects successfully.
5. 3G connection fails-it indicates failure or it stay at the same

status all the time

- Check whether the 3G card is with enough fee.
- Ensure you are in a location with stable and strong signal.
- Close and restart the 3G
- Close 3G, and then plug OTG cable and re-plug in the cable and 3G card again correctly.
- Close 3G and restart the tablet

6. Fail to copy files

- Ensure the tablet is connected to the computer correctly.
- Ensure there is still disk space.
- Ensure the USB cable is functionally well.

7. No sound in the earphone

- Ensure that the volume is not set to 0.
- Check whether the headset is correctly connected and the wire is broken.

8. The system has some trouble

- When you install some third-party applications it may lead to some functional problems. You can restart the tablet or uninstall the applications.

9. Unable to set E-mail or use registration applications.

- Ensure your Network is working properly.
- Ensure the E-Mail account is correctly set.
- Ensure your system time is the same with the local time.
- Please run the “Advanced Task Manager” to stop some other running applications.

10. The memory capacity is different from the nominal figure.

- Just like hard disk on computer, the capacity shown on the computer is usually less than the nominal capacity; this is due to different unit conversion used by computer and storage device manufacturers.

In computer, 1GB=1024MB, but storage device manufacturers use 1GB=1000MB as default. The actual capacity is not

lessened.

- The OS of this tablet pre-installs some applications, games and the OS itself occupies some capacity. This is also one reason why the capacity that can be used for storage is less than the nominal figure.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: W7421 (FCC ID: 2ACPR-W7421) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.396W/kg and when properly worn on the body is 1.197W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0 cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
