	Request for confidentiality	US - Long Term - Short Term.pdf

For the Exhibits marked with ‘\*’ VusionGroup GmbH requested Long-Term Confidentiality and for exhibits marked with ‘°’ VusionGroup GmbH requested Short-Term Confidentiality according to 47 CFR 0.457 and 0.459 of the FCC rules because these are sensitive parts owned by this company and include much of know-how or sensitive data, it will not be provided to the public.

The device was called HRC-BT02-A during development. VusionGroup decided to use the model name ERC3-BT01-A and the FCC ID to 2ACQM-ERC3-BT01-A. The test report and the labelling on some photos may be not the actual status. The correct labelling is shown on the label photo in Exhibit 1.

Tests were performed with a shelf label rail attached to the ES-C Controller. The rail was populated with a variety of electronic shelf labels. The shelf labels are separate part 15 unintentional radiators. The certified equipment is only the ES-C Controller.
