NEW ZEALAND

12<sup>th</sup> July 2017

SUBJECT: Change of Identification

FCC ID: 2ACTT-WGM110, 2ACTT-BGM111

I hereby advise the following:

The modules installed in the Define IOT (Internet of Things) Bridge have been certified by the FCC with the following FCC IDs and Grant issue dates:

- QOQBGM111. 02/12/2016
- QOQ-WGM110 04/06/2016

The modules have been installed in the IOT Bridge in accordance with the module manufacturer's instructions with both modules being installed on the same circuit board.

In addition to the RF transmitter modules power supply and signal processing circuitry has been added in order to operate as an IOT Bridge.

Testing has been carried out by EMC Technologies New Zealand Ltd the results of which show that the original test results continue to be representative.

The results also show that the two modules can operate simultaneously.

Yours sincerely

A handwritten signature in blue ink, appearing to read "AG", followed by a long horizontal flourish.
