

Conducted emissions test set up

Global Product Certification

Radiated emissions test set up – Below 1000 MHz (80 cm test height)

Global Product Certification

Radiated emissions test set up – Above 1000 MHz (150 cm test height)

Photographs:

General Set Up

Loop Test Set Up. 100 kHz - 30.0 MHz

Test set up using a biconical antenna between 30 - 300 MHz

Log Periodic Test Set Up. 300 - 1000 MHz

Horn Antenna Test Set Up. 1 - 18 GHz

Cone enclosure up close showing the cones

Above 1 GHz test equipment set up

Antennas in use over 300 MHz

Schwarzbeck VUSLP9111 Log Periodic Antenna
EMCO 3115 Horn Antenna
EMCO 3116 Horn Antenna
