Date: 8/28/2014

Federal Communications Commission

Dear Sir:

Pursuant to Section 0.457 and 0.459 of the Commission's Rules, the Applicant hereby requests confidential treatment of information accompanying this Application as outlined below:

Type of Confidentiality Requested		Exhibit	
Short Term	Permanent	Block Diagrams	
Short Term		External Photos	
Short Term	Permanent*1	Internal Photos	
Short Term	Permanent	Operation Description/Theory of Operation	
Short Term	Permanent	Parts List & Placement/BOM	
Short Term	Permanent	Tune-Up Procedure	
Short Term	Permanent	Schematics	
Short Term		Test Setup Photos	
Short Term	Permanent*	User's Manual	
The above materials of	contain trado cocrote an	d proprietary information not customarily released	

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors.

The Applicant requests selected above as short term confidential for a period of <u>90</u> days from the date of the Grant of Equipment Authorization and prior to marketing. The Applicant understands that pursuant to Rule 0.457, disclosure of this Application and all accompanying documentation will not be made before the date of the Grant for this application.

Title : Product Safety & Regulatory Engineer
Applicant : Keysight Technology Malaysia Sdn. Bhd

Address : Bayan Lepas Free Industrial Zone, 11900 Penang, Malaysia

Tel : **+604-6802504** Fax : **+604-6805886**

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
