

QUICK START GUIDE

1. Switch off the wireless charger when not in use. The wireless charger will automatically switch off when disconnected from its wall charger.

2. To disconnect the charging pad from the wireless pad, pull the AC adapter from the AC outlet. The AC outlet should be installed near the charging pad and should be easily accessible.

3. To comply with FCC RF interference limits, the wireless charger must be used with a separation distance of at least 20 cm from all persons.

Manufacturer shall not in any way be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this product in conjunction with any device or accessory other than the appropriate device for which this product is designed. Manufacturer will not be liable for any damages you or any third party may suffer as a result of misuse of this product as outlined above. Purchaser agrees to read, indemnify, and hold Manufacturer harmless for any claims or damages arising from unintended use of this device, including use with an unintended device.

mophie, mophie loves you, and the mophie logo are trademarks of mophie, Inc. MagSafe is a trademark of Apple Inc., registered in the U.S. and other countries. Patentes: mophie.com/patents.

This device complies with part 15 of the FCC Rules and RSS-Gen of IC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against interference in residential environments. This equipment generates, uses, and can radiate radio frequency energy, and it is not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, we encourage you to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: To comply with the limit of the Class B digital device, pursuant to Part 15 of the FCC Rules, this device must be used with certified peripherals and shielded cables. All peripherals must be shielded and grounded. Operation with non-shielded peripheral or non-shielded cables may result in interference to radio reception.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Any changes or modifications not expressly approved by the writer responsible for compliance could void the warranty and void the user's authority to operate.

MODIFICATION: Any changes or modifications of this device could void the warranty.

STATEMENT OF COMPLIANCE

Hereby, mophie declares that the radio equipment wireless charging base is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.mophie.com/icc

WEEE DECLARATION: All of our products are marked with the WEEE symbol, which indicates that this product must NOT be disposed of with other waste. Instead it is the user's responsibility to ensure that the product is disposed of in an appropriate manner by handing it over to an approved reprocessor, or by returning it to mophie for recycling. For more information about where, or how, you send your waste products for recycling, please contact mophie, Inc. or one of your local distributors.

IMPORTANT SAFETY INSTRUCTIONS

Warning

Read all instructions and warnings prior to using this product. Improper use of this product may result in product damage, injury, loss, toxic fumes, fire or explosion, for which damages you ("Purchaser"), and not mophie, Inc. ("Manufacturer") are responsible.

1. Do not store device in high-temperature environment, including heat caused by intense sunlight or other forms of heat. Do not place device in fire or other excessively hot environment. Exposure to fire or temperatures above 212°F (100°C) may cause the wireless charger to fail or blow.

2. Do not use the wireless charger in excess of its output rating. Overloading outputs may result in fire.

3. Do not disassemble this product or attempt to re-purpose or modify it in any manner.

4. Do not attempt to replace any part of this device.

5. For questions or instructions for the various ways to charge this device, refer to the illustrations in this quick-start guide.

6. If this device is accessible to or may be used by a minor, purchasing adult agrees to be solely responsible for providing, supervising, and warning.

7. Purchaser agrees to defend, indemnify, and hold Manufacturer harmless for any claims or damages arising from unintended use of this device, including use with an unintended device.

8. All products have gone through a thorough quality assurance inspection. If you find that your device is necessary but, is emitting noise, is deformed, abraded, cut, or is experiencing or demonstrating an abnormal phenomenon, immediately stop all product use and contact Manufacturer.

3

3. Switch off the wireless charger when not in use. The wireless charger will automatically switch off when disconnected from its wall charger.

4. To disconnect the charging pad from the wireless pad, pull the AC adapter from the AC outlet. The AC outlet should be installed near the charging pad and should be easily accessible.

5. To comply with FCC RF interference limits, the wireless charger must be used with a separation distance of at least 20 cm from all persons.
