- B. FCC Application ID 2ACWNZS6284

Clarification of FCC application 2ACWNZS6284

To whom it may concern,

The equipment under test (EUT) specified at reference A has 4 different configurations that are stated in section 2.1 of that document. The tests carried out on this piece of equipment were all conducted with a single antenna attached (EURIDK6083 control and 1 antenna).

Due to this, the FCC application is only for the single antenna variant of this system.

Yours Sincerely,

David Stanley-Boden
Engineering Manager
