Safety & Regulatory Statements

| | | |
|--|--|--|
|  | CAUTION WARNING SHOCK HAZARD. DO NOT OPEN. AVIS RISQUE DE CHOC ELECTRIQUE. NE PAS OUVRIR |  |
| CAUTION: TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR BACK) OF THE UNIT. REFER SERVICING ONLY TO QUALIFIED SERVICE PERSONNEL. | | |

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and servicing instructions in the literature accompanying the appliance.

For recycling or disposal information about this product, please contact your local authorities.

- ⓘ **WARNING:** To prevent fire or shock hazard, do not expose this device to rain or moisture. Dangerous high voltage is present inside the enclosure. Do not open the cabinet. Protect your hearing: Hearing experts advise against the constant use of personal stereos played at high volume. Constant exposure to high volumes can lead to hearing loss. If you should experience ringing in the ears or hearing loss, discontinue use and seek medical advice. Note: If the product suddenly has no response or powers off, an electrostatic discharge may be the cause. In this circumstance, please follow the procedures below for recovery: Turn off the unit by pushing and holding the slide button • at the right (Power off Power off position) for 15 seconds.
- ⓘ Turn on the unit again

At full volume, prolonged listening to the portable audio device may damage the user's hearing.

Important Safety Instructions

1. This Notebook PC should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).
2. Refer to the rating label on the bottom of your Notebook PC and ensure that your power adapter complies with this rating.
3. Do not leave your Notebook PC on your lap or near any part of your body to prevent discomfort or injury from heat exposure.
4. Do not use damaged power cords, accessories, and other peripherals with your Notebook PC.
5. While powered on, ensure that you do not carry or cover your Notebook PC with any materials that can reduce air circulation.
6. Do not place your Notebook PC on uneven or unstable work surfaces.
7. You can send your Notebook PC through x-ray machines (used on items placed on conveyor belts), but do not expose them to magnetic detectors and wands.
8. Contact your airline provider to learn about related inflight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.
9. Disconnect the AC power and remove the battery pack (if applicable) before cleaning your Notebook PC. Use a clean cellulose sponge or chamois cloth dampened with a solution of nonabrasive detergent and a few drops of warm water. Remove any extra moisture from your Notebook PC using a dry cloth.
10. Do not use strong solvents such as thinners, benzene, or other chemicals on or near your Notebook PC.
11. Do not place objects on top of your Notebook PC.
12. Do not expose your Notebook PC to strong magnetic or electrical fields.
13. Do not use or expose your Notebook PC near liquids, rain, or moisture.
14. Do not expose your Notebook PC to dusty environments.
15. Do not use your Notebook PC near gas leaks.

FRONT OVERVIEW

The following is the overview of the front of the notebook.

1 Camera

The built-in HD camera allows you to snap a photo or create a video chat or video conference with just a click.

2 LCD Display

The display panel is a color LCD panel with back lighting for the display of text and graphics.

3 Status Indicator Lights

The Status indicator lights correspond to specific operating modes. These modes are: Suspend/Power On status, battery/AC adapter status, and hard disk drive (HDD) activity.

4 Power On Button

This button turns your notebook on and off or puts it to sleep. (See Suspend/Power On Button in the Power On section for more information.)

5 Microphone

The built-in microphone allows for the reception and transmission of voice and/or other audio data to any program capable of accepting such input.

6 Touch Pad

The touch pad is a mouse-like cursor control with two left and right click areas and a touch sensitive movement pad.

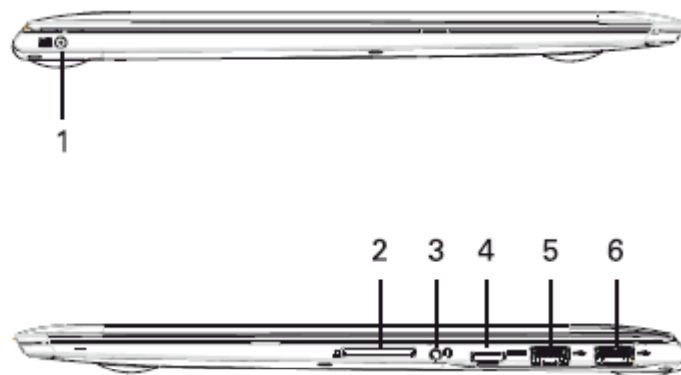

THOMSON

EN

SIDE OVERVIEW

The following is a brief description of the left and right side of the notebook

1 Power Adapter Port

The power adapter port allows you to plug in the AC adapter to power your notebook and charge the internal Lithium-Ion battery.

2 Memory Card Reader

The memory card reader offers the fastest and most convenient method to transfer pictures, music and data between your notebook and flash compatible devices such as digital cameras, MP3 players, mobile phones, and PDAs.

3 Audio Combo Jack (Headphone & Microphone)

The audio combo jack allows you to connect headphones, external speakers, amplifiers or an external mono microphone.

4 Mini HDMI Port

The Mini HDMI port allows you to connect a video device such as a television, a projector, or a VCR to your computer.

5/6 USB Port

The USB port allows you to connect Universal Serial Bus devices. They support v3.0 of the USB standard, which allows data exchange rates as high as 4.8 Gb/s. The USB port supports sleep / Power off charge functionality. USB 3.0 is backwards compatible with USB 2.0.

Working with Windows 8

When you start your computer for the first time, a series of screens appear to guide you in configuring the basic settings of your Windows 8 operating system.

To start your Notebook PC for the first time:

1. Press the power button on your Notebook PC. Wait for a few minutes until the setup screen appears.
2. From the setup screen, pick a language to use on your Notebook PC.
3. Carefully read the License Terms. Tick I accept the terms for using Windows then click Accept.
4. Follow the onscreen instructions to configure the following basic items:
 - Keep your PC secure
 - Personalize
 - Wireless
 - Settings
 - Sign in to your PC
5. After configuring the basic items, the Windows®8 tutorial appears. Watch this to learn more about Windows®8 functionalities.

Windows 8 lock screen

The Windows®8 lock screen may appear when your Notebook PC enters the Windows®8 operating system. To proceed, tap on the lock screen or press any key on your Notebook PC's keyboard.

Windows UI

Windows® 8 comes with a tile-based user interface (UI) which allows you to organize and easily access Windows apps from the Start screen. It also includes the following features that you can use while working on your Notebook PC.

Start screen

The Start screen appears after successfully signing in to your user account. It helps organize all the applications you need in just one place.

Hotspot

Action

Upper left corner

Hover your mouse pointer on the upper left corner then tap on the recent app's thumbnail to revert back to that running app.

If you launched more than one app, slide down to show all running apps.

Lower left corner

From a running app screen:

Hover your mouse pointer on the lower left corner then tap on the Start screen's thumbnail to go back to the Start screen.

① NOTE: You can also press the Windows key on your keyboard to go back to the Start screen.

From the Start screen:

Hover your mouse pointer on the lower left corner then tap on the running app's thumbnail to go back to that app.

Top side

Hover your mouse pointer on the top side until it changes to a hand icon. Drag then drop the app to a new location.

① NOTE: This hotspot function only works on a running app or when you want to use the Snap feature. For more details, refer to the Snap feature under Working with Windows® apps.

Upper or lower right corner

Hover your mouse pointer on the upper or lower right corner to launch the Charms bar.

Working with Windows apps

Use your Notebook PC's touchpad, or keyboard to launch, customize, and close apps.

Launching apps

-  Position your mouse pointer over the app then left-click or tap once to launch it.
-  Press  twice then use the arrow keys to browse through the apps. Press  to launch an app.

Customizing apps

You can move, resize, unpin, or close apps from the Start screen using the following steps:

Moving apps

- Double-tap on the app then drag and drop the app to a new location.

Resizing apps

- Right-click on the app to activate its settings bar then tap  or .

Unpinning apps

- Right-click on the app to activate the settings bar then tap .

Closing apps

- 1 Move your mouse pointer on the top side of the launched app then wait for the pointer to change to a hand icon.
- 2 Drag then drop the app to the bottom of the screen to close it.

- Utilisez la combinaison de touches +

Accessing the Apps screen

Aside from the apps already pinned on your Start screen, you can also open other applications through the Apps screen.

4 To switch between apps, press  + .

Connecting to wireless networks

Wi-Fi

Access emails, surf the Internet, and share applications via social networking sites using your Notebook PC's Wi-Fi connection.

❗ **IMPORTANT!** Ensure the Airplane mode is turned off to enable the Wi-Fi function of your Notebook PC. For more details, refer to the Airplane mode section in this manual.

Enabling Wi-Fi

Activate Wi-Fi in your Notebook PC using the following steps on your touchpad.

1 Launch the Charms bar.

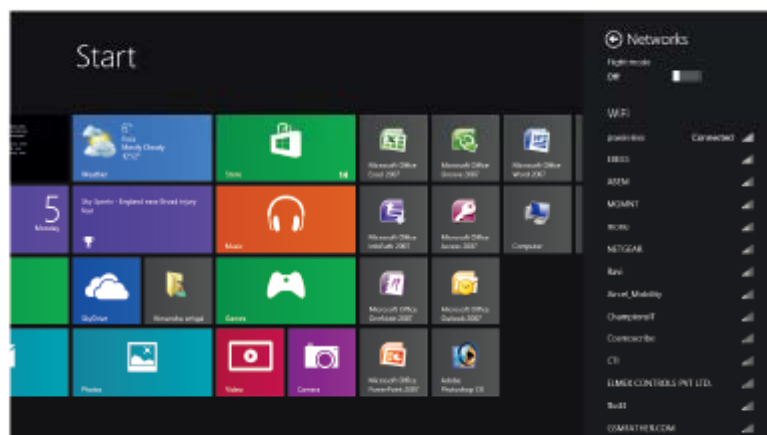

2 Tap  and tap .

3 Select an access point from the list of available Wi-Fi connections.

4 Tap Connect to start the network connection.

❗ **NOTE:** You may be prompted to enter a security key to activate the Wi-Fi connection.

If you want to enable sharing between your Notebook PC and other wireless-enabled systems, tap Yes, turn on sharing and connect to devices. Tap No, don't turn on sharing or connect to devices if you do not want to enable the sharing function.

Bluetooth

Use Bluetooth to facilitate wireless data transfers with other Bluetooth-enabled devices.

- ① **IMPORTANT!** Ensure the Airplane mode is turned off to enable the Bluetooth function of your Notebook PC. For more details, refer to the Airplane mode section in this manual.

Pairing with other Bluetooth-enabled devices

You need to pair your Notebook PC with other Bluetooth-enabled devices to enable data transfers. To do this, use your touchpad as follows:

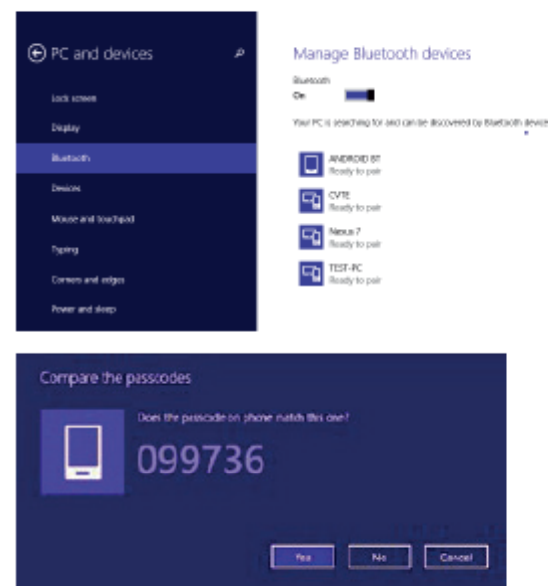

1 Launch the Charms bar.

2 Tap then tap Change PC Settings.

3 Under PC Settings, select Devices then tap Add a Device to search for Bluetooth-enabled devices.

4 Select a device from the list. Compare the passcode on your Notebook PC with the passcode sent to your chosen device. If they are the same, tap Yes to successfully pair your Notebook PC with the device.

- ① **NOTE:** For some bluetooth-enabled devices, you may be prompted to key in the passcode of your Notebook PC.

TROUBLESHOOTING

Your notebook PC is sturdy and subject to few problems in the field. However, you may encounter simple setup or operating problems that you can solve on the spot, or problems with peripheral devices, that you can solve by replacing the device. The information in this section helps you isolate and resolve some of these straightforward problems and identify failures that require service.

Identifying the Problem

If you encounter a problem, go through the following procedure before pursuing complex

Troubleshooting:

1. Turn off your notebook.
2. Make sure the AC adapter is plugged into your notebook and to an active AC power source.
3. Make sure that any card installed in the PC Card slot is seated properly. You can also remove the card from the slot, thus eliminating it as a possible cause of failure.
4. Make sure that any devices connected to the external connectors are plugged in properly. You can also disconnect such devices, thus eliminating them as possible causes of failure.
5. Turn on your notebook. Make sure it has been off at least 10 seconds before you turn it on.
6. Go through the boot sequence.
7. If the problem has not been resolved, contact your sup-

port representative.

Before you place the call, you should have the following information ready so that the customer

support representative can provide you with the fastest possible solution:

- Product name
- Product configuration number
- Product serial number
- Purchase date
- Conditions under which the problem occurred
- Any error messages that have occurred
- Hardware configuration
- Type of device connected, if any

See the Configuration Label on the bottom of your notebook for configuration and serial numbers.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user can correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure restriction.
