 Columbia, MD 21046

MODULAR APPROVAL LETTER – FCC ID: 2ACXQ-CL4NXPLUS-MR1

Modular Approval Requirement Yes No

Modular Approval Requirement	Yes	No
(i) The radio elements of the modular transmitter must have their own shielding. The physical crystal and tuning capacitors may be located external to the shielded radio elements.	<input checked="" type="checkbox"/>	
(ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.	<input checked="" type="checkbox"/>	
(iii) The modular transmitter must have its own power supply regulation.	<input checked="" type="checkbox"/>	
(iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c). The antenna must either be permanently attached or employ a "unique" antenna coupler (at all connections between the module and the antenna, including the cable). The "professional installation" provision of § 15.203 is not applicable to modules but can apply to limited modular approvals under paragraph (b) of this section.		<input checked="" type="checkbox"/>
(v) The modular transmitter must be tested in a stand-alone configuration		<input checked="" type="checkbox"/>
(vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	<input checked="" type="checkbox"/>	
(vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	<input checked="" type="checkbox"/>	
(viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	<input checked="" type="checkbox"/>	

<p>If a module(s) does NOT meet one or more of the above listed requirements, the applicant may request Limited Modular Approval (LMA). For LMA, please state details about why the above requirement(s) could not be met; and state how control of the end product, into which the module will be installed, will be maintained by the applicant / manufacturer, such that full compliance of the end product is always ensured:</p> <p>MR-1 module is installed in the end product by the professionals. Neither antenna nor cable is to be exchanged with any other requirement.</p>		

Regards,
