Product Description

K9C series self-powered wireless switch

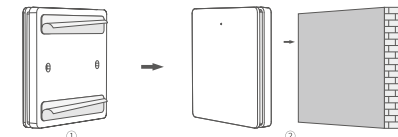

(One button switch) (Two button switch) (Three button switch)

K9C series self-powered wireless switch is a wireless signal transmitter without wiring and battery. It can be used in conjunction with the corresponding receiver/wall switch/gateway to perform lighting control, linkage and other functions. Please refer to the receiver/wall switch/gateway manual for the usage and pairing operation details.

K9C series self-powered wireless switches use innovative self-powered technology to collect the instantaneous energy of the switch and use it to send wireless signals. Therefore, a battery is not required, which avoids the trouble of changing a battery and protects the environment.

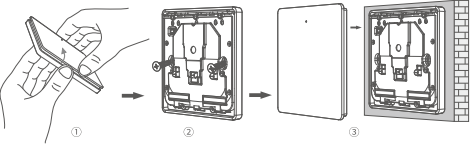

Installation Instructions

Option 1: Tear off the double-sided tape and stick it on the wall if the wall is clean.

①. Tear off one side of the double-sided tape and stick it onto the back of the switch, and then remove the double-sided tape protective film. ②. Stick the switch onto the wall and press firmly.

Option 2: Install the switch in place of the original switch using screws.

①. Pull up to remove the back cover. ②. Install the back cover onto the 86 mm switch case with screws. ③. Then push the switch onto the back cover.

Technical Info

Model	K9C-W1/K9C-W2/K9C-W3
Power supply	Self-powered (without extra power supply)
Radio frequency	433.92Mhz, 10dbm
Covering range	50 m (outdoor)
Working Temperature	-10~40°C

Warranty Card

Dear valued customer:
Thank you for selecting the K9C self-powered wireless switch. In order to improve our service, please fill in the warranty card information carefully.

Warranty Card

Name _____
Add _____
Tel _____
Product type _____
Fault reason _____
Date of purchase _____

1. The warranty is valid for 12 months from the date of purchase.
2. If you need to make a claim under warranty, please provide proof of purchase along with the warranty-card.
3. If the fault is due to misuse, or incorrect installation, the warranty will be invalidated.

Environmental protection
The device and its accessories (if included) should not be disposed of with household garbage. Disposal of the device and its accessories is subject to local regulations. Support proper collection and recycling.

Disposal and recycling information

This symbol (with or without a solid bar) on the device, and/or the packaging, indicates that the device and its electrical accessories (for example, a cable) should not be disposed of as household garbage. These items should not be disposed of as unsorted municipal waste and should be taken to a certified collection point for recycling or proper disposal. For more detailed information about device, contact your local city office, household waste disposal service, or retail store. Disposal of the device is subject to WEEE Directive Recast (Directive 2012/19/EU). The purpose of separating WEEE from other waste is to minimize the potential environmental impacts and human health risk of any hazardous substances that may be present.

Reduction of hazardous substances
This device is compliant with the REACH Regulation [Regulation (EC) No 1907/2006] and RoHS Directive Recast (Directive 2011/65/EU).

EU regulatory conformance statement
Hereby, Wuhan Linptech Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of 2014/53/EU.
The following marking is included in the product:

CE

This device may be operated in all member states of the EU. Observe national and local regulations where the device is used. This device may be restricted for use, depending on the local network.

FCC Warning
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
