Model Attestation Letter

Dear Sir or Madam:

I hereby declare that Models 11-4000-0-06000 and 11-4001-0-06000 are mechanically/electrically equivalent products and only differ in orientation based on the leg for which the X4 knee brace is installed.

The X4 knee brace is intended to provide post-operative knee support during the rehabilitation process. The Motion Intelligence platform together with X4 is intended to be used to measure and evaluate knee joint range of motion during rehabilitation and exercise in the pre-operative and post-operative phases of reconstructive knee surgery.

Sincerely,

A handwritten signature in blue ink, appearing to read "Matthew Lloyd", on a light-colored background.

Name: Matthew Lloyd
