2.

ASSEMBLY

Connect the satellite speaker to the main speaker.

The cable attached to your satellite speaker has two plugs. These plugs connect to the output port and the light port on the main speaker.

Once your speakers are connected properly, you can insert the power cable on your main speaker into an available power outlet in your home.

3.

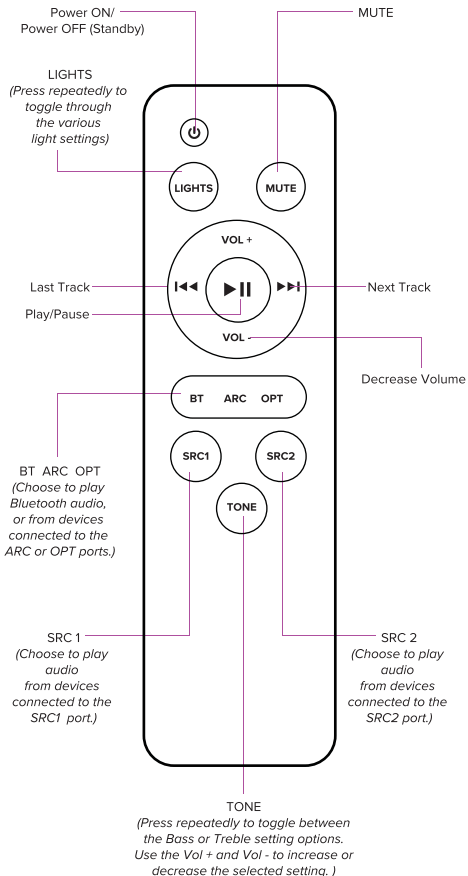

AUDIO INPUT

Plug external audio devices into the various ports on on the main speaker.

4.

USING THE REMOTE

5.

SPEAKER CONTROLS

FRONT CONTROL PANEL

Microphones (not included) can be plugged into the Mic1 and Mic2 input jacks so that you can sing along while your favorite songs are playing.

Rotate the ECHO knob to add more vocal effect to your voice.

Rotate the Mic1 and Mic2 volume knobs to increase or lower the volume on each microphone.

SIDE CONTROL PANEL

6.

BLUETOOTH PAIRING

Press the Power ON button on your remote control to power on your speakers.

Press the BT button on your remote control to enter Bluetooth mode.

Go to the Bluetooth settings menu on your phone. Make sure that Bluetooth is turned on. Connect to the device listed as "ABT385."

7.

SPEAKER PLACEMENT

For best results you should place one speaker directly to the left of a TV or computer monitor, and the other speaker placed directly to the right of a TV or computer monitor (see below).

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
