

## DTS-UNII Device Declaration Letter

We, Name: Kaijet Technology International Corporation

We have declared below featured for FCC equipment authorization, device FCC ID: 2AD37JVAW75RX;

(1) DFS Device -  Master  Client with Radar detection capability  
 Client without radar detection capability  N/A

(2) Active / Passive Scanning , adhoc mode access point capability

| Frequency Band (MHz) | Active Scanning (the device can transmit a probe (beacon))           | passive scanning (where the device is can listen only with no probes) | Ad Hoc Mode capability   | Access point capability  |
|----------------------|--|---|--|--|
| 2412 – 2462 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |
| 2422 – 2452 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |
| 5745 – 5825 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |
| 5755 – 5795 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |
| 5180 – 5240 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |
| 5190 – 5230 MHz      | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input checked="" type="checkbox"/> Yes, <input type="checkbox"/> No  | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes, <input checked="" type="checkbox"/> No |

(3) Country code selection ability  Yes,  No

If you should have any question(s) regarding this declaration, please don't hesitate to contact us.

(4) Meet 15.202 requirement -  Yes  No ,

pls check below :

A master device is defined as a device operating in a mode in which it has the capability to transmit without receiving an enabling signal. In this mode it is able to select a channel and initiate a network by sending enabling signals to other devices

A client device is defined as a device operating in a mode in which the transmissions of the device are under control of the master. A device in client mode is not able to initiate a network...

(5) For client devices that have software configuration control to operate in different modes (active scanning in some and passive scanning in others) in different bands (devices with multiple equipment classes or those that operate on non-DFS frequencies) or modular devices which configure the modes of operations through software, the application must provide software and operations description on how the software and / or hardware is implemented to ensure that proper operations modes can not be modified by end user or an installer.

Apply , "Yes , please see SW security Description".  No Apply , (If apply , pls help to provide explanation on it was implement , and how software was controlled)

If no, pls explain how was implemented : Country is selected as US by default and user can not change the country code.

Sincerely yours,

Name: TAI YU-CHI

Date: May 22, 2023

Title: Project Manager

Signature of applicant:
