

P2 Mobile Technologies Limited

Test Data Reuse Letter

Per FCC KDB 484596 D01 Referencing Test Data v01, this application is intended to reuse previous test data (from FCC ID: 2AD6M-AX52), due to the fact that the two models of products are hardware-wise identical and only the following changes have been made:

AX51 (FCC ID: 2AD6M-AX51) based on AX52 (FCC ID: 2AD6M-AX52) to remove the Radio 1 Wi-Fi module. All the other HW & SW are same as the AX52 (FCC ID: 2AD6M-AX52). Therefore, based on this difference, the following spot check testing is made:

Test Item	Reuse Data Description
26dB Bandwidth	Refer to AX52 (FCC ID: 2AD6M-AX52)
6dB Bandwidth	Refer to AX52 (FCC ID: 2AD6M-AX52)
Maximum Conducted Output Power	Refer to AX52 (FCC ID: 2AD6M-AX52)
Peak Power Spectral Density	Refer to AX52 (FCC ID: 2AD6M-AX52)
Frequency Stability	Refer to AX52 (FCC ID: 2AD6M-AX52)
Radiated Spurious Emissions	Make Spot Check
Radiated Band Edge	Make Spot Check

Also, both the referenced application and this new application are all subject to the same FCC rule and there is no new rule update for related rules. Accordingly, we believe that the reuse data from previous certified filing is justifiable.

Thank you for your attention and please feel free to contact us, if you should have any questions. Sincerely yours,
