Inquiry on 11/08/2021 :

Inquiry:

Dear,

The company OURA HEALTH Oy, is preparing the FCC labelling of a really small product. Our product is a Wellness Ring which the user will wear in her/his finger. The model name of the product is Gen3 and the FCC ID will be 2AD7V-OURA2101.

Please, for a better understating you can see the product picture and data from our web page <https://ouraring.com/>.

We are asking for authorization to place the FCC ID into the sales package and printed user manual instead of the product itself.

Please, note that you gave similar permission to us with the previous generation product (FCC ID: 2AD7V-OURA1801) was accepted in May 2018.

Thank you in advance for your time and support.

Best regards

FCC response on 11/09/2021

Hello,
Please attach a picture of the item to this inquiry.

---Reply from Customer on 11/09/2021---

Please find attached the picture of the product.

If you have any problem to open the doc, please don't hesitate to contact me.

Thank you in advance for your time and support.

FCC response on 11/09/2021

Hello,
Per 2.925(F)

The FCC Identifier including the term "FCC ID" shall be in a size of type large enough to be readily legible, consistent with the dimensions of the equipment and its label. However, the type size for the FCC Identifier is not required to be larger than eight-point. If a device is so small that it is impractical to label it with the FCC Identifier in a font that

is four-point or larger, and the device does not have a display that can show electronic labeling, then the FCC Identifier shall be placed in the user manual and must also either be placed on the device packaging or on a removable label attached to the device.
