Asunto: Response to Inquiry to FCC (Tracking Number 313284)

Inquiry on 06/12/2024 :

Inquiry:

To whom it may concern,

We, DEKRA Testing and Certification S.A.U., have been hired to act as an agent in the equipment Certification on behalf of Oura Health Oy for United States of America (FCC) approval certification process.

The product under the scope, is not appropriated to place the IC number on the equipment due to the reduce availability surface and dimension on the product is too small and it is not practicable.

Please, see below some pictures that describe the product structure:

Therefore, we kindly want to ask your permission to place the FCC Certification number and the related statement required by the rules in a prominent location of the User Guide which will be supplied together with this device.

Waiting for your written confirmation to proceed accordingly

Thank you very much for your attention.

Sincerely

FCC response on 06/13/2024

Hello,

You did not upload any pictures to review. However, if you meet the requirement in 2.925(f) of the FCC Rule which says if the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual. However, it must be determined that the device itself is too small – the label area allocated to the FCC ID may not be reduced because of overcrowded identification of other product and regulatory information.
