Subject: Request for Confidentiality for FCC ID: 2AD8UAZRBRH1 C2PC

Dear Examiner:

In the original filing, pursuant to FCC 47 CFR 0.457(d) and 0.459, Section 10, Nokia Solutions and Networks requested that the document **Installation and Operating Instructions** be held permanently confidential and permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public. That confidentiality request was granted in the original filing.

The documents **Installation and Operating Instructions** has been updated. Therefore, Nokia Solutions and Networks requests that the updated document below to be held permanently confidential and permanently withheld from public review due to the same reason stated in the original request.

- **Exhibit 4** **Installation and Operating Instructions**
- **Exhibit 5** **Description of Operation**

Confidentiality of the User Manual, Installation and Operation Instructions, is maintained by requiring that any party that is supplied a user manual must first sign a non-disclosure agreement. Currently only cellular system operators have access to these manuals. The sample non-disclosure agreement submitted in the original filing is still valid and is not resubmitted here.

Further, the Applicant has spent substantial effort in developing this product, some aspects of which are deemed to be trade secret and proprietary. Having the subject information easily available to our competitors in this market would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Sincerely yours,

Terry Schwenk
