

Request for Confidentiality

Date: July 01, 2015

Confidentiality Request for:

FCC ID: 2AD8UFZPFWIC01

IC: 109D-FZPFWIC01

To Whom It May Concern,

Pursuant to FCC 47 CFR 0.457(d) and 0.459 and IC RSP-100, Section 10, Nokia Solutions and Networks requests that a part of the subject FCC and/or IC application listed below be held permanently confidential and permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

- **Software Operating Description**

This letter is a supplement to the original Request for Confidentiality letter submitted in the original filing and adds the Software Operating Description to that list. Confidentiality of the User Manual and associated Software Operating Description is maintained by requiring that any party that is supplied this material must first sign a non-disclosure agreement. Currently only cellular system operators have access to this information. Internal photos are kept confidential by virtue of the fact that the end product is a non-consumer product, certified and housed in a sealed enclosure, and is only accessible by trained /approved maintenance personnel.

Further, the Applicant has spent substantial effort in developing this product, some aspects of which are deemed to be trade secret and proprietary. Having the subject information easily available to our competitors in this market would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Sincerely yours,

(Signature)

Terry Schwenk
