RE: Wave Central, LLC (Grantee Code: 2AD9D)
FCC ID: 2AD9D-AXIS5GTX
Request for Modular Approval

To Whom It May Concern:

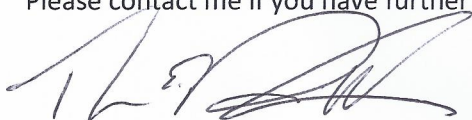

We are requesting Limited Modular Approval. In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Certification Guide v01r04', Wave Central has been examined against the following requirements:

Essential Elements of 15.212(a)(1)	Yes	No
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	X	
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	X	
The module must contain power supply regulation on the module	X	
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	X	
The module must demonstrate compliance in a stand-alone configuration <i>*see note</i>		X
The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	X	
The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	X	
The module must comply with RF exposure requirements	X	

*(Explain why this is a "no")

The transmitter D1110 RF module requires an additional control module. Purpose of this control module, with display is to communicate and setup the modular transmitter D1110 RF module. Also, external dc power, video, audio, is supplied via interface circuit boards with the applicable connectors to interface with source video and audio signals.
