

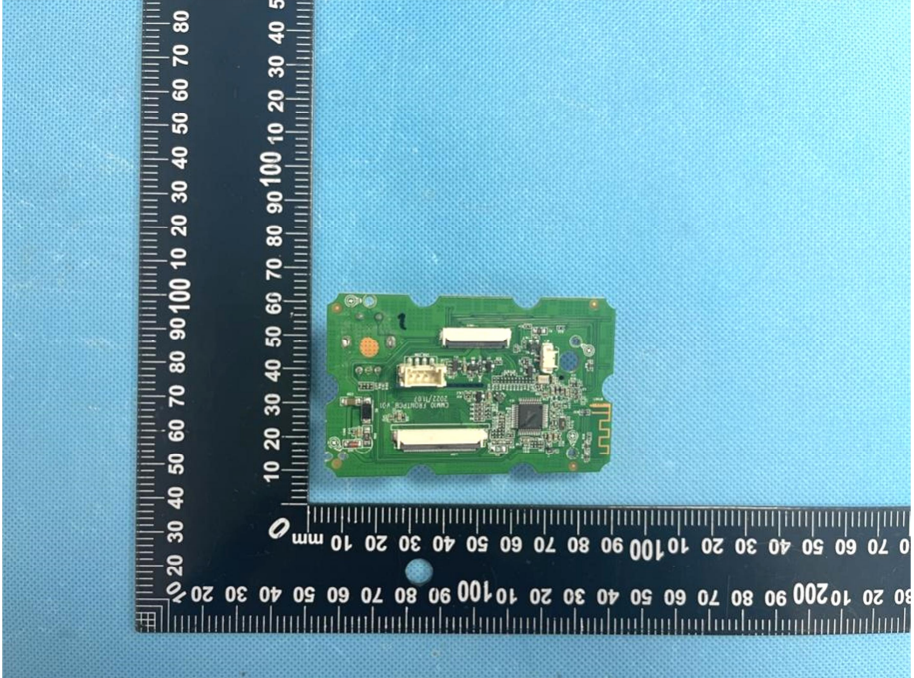

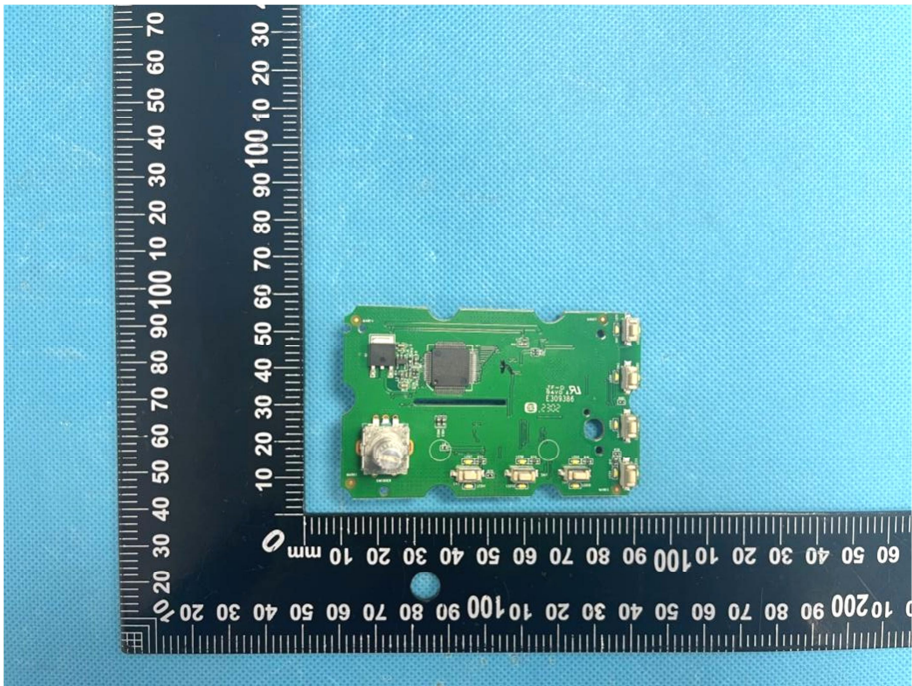

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the external components of the EUT. On the left is a black plastic housing with a white connector. To its right is a green printed circuit board (PCB) populated with various electronic components. Several cables with different connectors are plugged into the board. A black ruler is placed vertically to the left of the components for scale, showing measurements in millimeters.
<p><b>Solder Board-Component View 1</b></p>	 A close-up photograph of the green PCB component. The board is populated with various components, including a central microcontroller, several integrated circuits, and surface-mount components. Two large white connectors are visible on the board. A black ruler is placed vertically to the left of the board for scale, showing measurements in millimeters.

<p><b>Solder Board-Component View 2</b></p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'View 2'. The board is rectangular and populated with various electronic components, including a central integrated circuit (IC), several resistors, and surface-mount components. It is placed on a blue textured background next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 70 mm.</p>
<p><b>Solder Board-Component View 3</b></p>	 <p>A photograph of the same green PCB component, labeled 'View 3'. This view shows the board from a different angle, highlighting a large multi-pin connector on the left side and a smaller connector at the top. The board is populated with various components, including a large IC, capacitors, and other surface-mount parts. It is placed on a blue textured background next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 60 mm.</p>
