RE: Electronic method for label FCC: 2AD9Z-INS1011976

To Whom It May Concern:

Thermo Fisher Scientific Inc. will place the regulatory info for the RFID 2AD9Z-INS1011976 in electronic format on the Genetic Sequencer that it is installed within. The RFID boards are not accessible to end users of the equipment.

The procedure to access the regulatory info is contained within the user guide and requires two button presses to access.

From the main screen press Options, then Regulatory info to see display:

Signatory
