BMRMJOT2 Labeling Requirements

Module Label
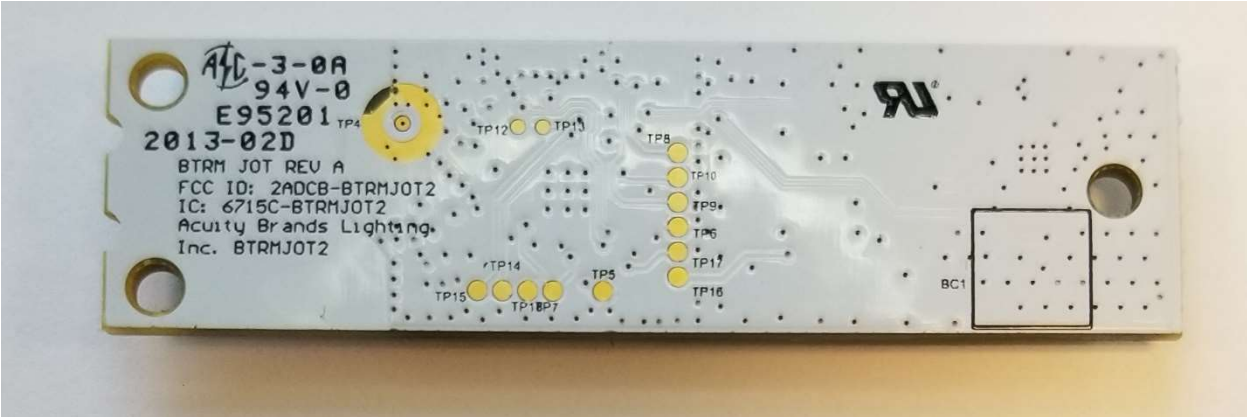

A label will be silkscreened to the PCB. The size of this label will be no greater than 16x16mm. And will contain the following text:

> FCC ID: 2ADCB-BTRMJOT2
> IC: 6715C-BTRMJOT2
> Acuity Brands Lighting Inc.
> BTRMJOT2

The label can also contain information related to manufacturing identification. The above information is the only required information.

Final Specification:

> FCC ID: 2ADCB-BTRMJOT2
> IC: 6715C-BTRMJOT2
> Acuity Brands Lighting Inc.
> BTRMJOT2 501-0125-XXX

Module Label Picture

Host Label

A label will be affixed to the host device with the following text:

> Contains FCC ID: 2ADCB-BTRMJOT2
> Contains IC: 6715C-BTRMJOT2
> Acuity Brands Lighting Inc.
> BTRMJOT2
>
> This device complies with Part 15 of the FCC Rules.
> Operation is subject to the following two conditions:
> (1) This device may not cause harmful interference,
> and (2) this device must accept any interference
> received, including interference that may cause
> undesired operation.

The label will be properly sized to fit the application. If the host device is smaller than the palm of a hand, the label will be:

> Contains FCC ID: 2ADCB-BTRMJOT2
> Contains IC: 6715C-BTRMJOT2
> Acuity Brands Lighting Inc.
> BTRMJOT2

The label will be properly sized to fit the application.

Example:

User Manual:

The BTRMJOT2 user manual will contain all information required to create a label.
