INSTALLATION GUIDE

3.1 MOUNTING THE CRADLE

1) General Installation

Clean the mounting surface with the enclosed cleaner.
* Use one cleaner per cradle.

Insert the cord into three cable-slots on the bottom of the cradle as shown in the picture.

Remove the protective film underneath the cradle and firmly press into place.

APPLICATION TIPS:

- The mounting surfaces must be clean and dry.
- Do not lift or reposition a cradle right after an application as this may cause poor adhesion.
- It may take up to 24 hours to ensure adhesive to reach maximum strength.

2) Hide lines and holes in table

Clean the mounting surface with the enclosed cleaner.
(Use one cleaner per cradle)

Insert the USB cable cord into two cable-slots and leave one slot as shown in the picture.
Insert the USB plug part in the hold on the table.

Remove the protective film underneath the cradle and firmly press into place.

3) Wall-mount Installation

Wall-mount KIT is provided in separate parts.
Use two screws to mount the cradle body against the wood framed wall.

Use four screws to assemble the cradle top to the body on the wall.
Seal four screw holds with the enclosed silicon tapes as shaped on the top cradle.

3.2 INSTALLING USB CABLE

Plug the USB cable into the charging port of the device.
Remove the adhesive film on the top and stick to the backside of the device.
Press firmly into place.

* It may take up to 24 hours ensure a proper bond.

3.3 INSTALLING USB HUB

1) Installation

Connect a USB cable(s) into a USB port(s).
Connect the adaptor to the hub and plug into a power outlet.
Turn on the power switch.

2) System Setting

Turn on the power switch.
If you hear a beep, it indicates that the hub is entering into a pairing mode for 10 seconds.
Within 10 seconds, press any button on your remote control to connect to the hub.

**Maximum three remote controllers that are within a distance of 1 meter from the hub can be paired with the system.

Note: To check if a connection has been established, press any key on your remote. If pairing is unsuccessful, start the process from the beginning.

3) Alarm Activation

An alarm system will be activated under the following conditions:

- A security/charging cable is unplugged from the port.
- A sensor part of the cable is detached from the product.
- A cable cord is cut off.

3.4 REMOTE CONTROL

Remote Controller Manual

Key	Function
	Silences alarm / Pairing Device
	Disarms and switches a hub into a setting mode for 10 sec
	Silences alarm
LED	USB Cable Power LED on/off

3.5 POWER ADAPTOR

Input	100-240V ~50-60Hz 1.5A
Output	+12V—7.5A

WARRANTY

Limited Warranty

ONE Agency warrants that the products should be free from defects in material and workmanship under normal and intended use for the following period from the date of purchase:

Control Box: 12 month

SMPS: 6 month

USB Cable: 6 month

ONE Agency will replace any part which proves defective by reason of improper workmanship and/or material at no charge. This warranty excludes parts that become worn during normal use and applies only if the product fails to function properly under normal use in accordance with our installation guide.

In no event shall ONE Agency be liable for any damages or malfunctions resulting from shipping, inappropriate usage, accidents, failure to operate or maintain the product according to instructions.

How to get service

Warranty service is available within the applicable time period by returning the product to Troica with a copy of the original receipt or satisfactory evidence of date of purchase, specification of defects, transportation prepaid, in its original or an equivalent packaging that afford an equal degree protection.

FCC notice to users and product statements

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. Operation is subject to the following two conditions; (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

Information to user.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.

IMPORTANT NOTE:

IMPORTANT Safety Instruction:

CAUTION

To reduce the risk of electric shock, do not remove the top cover (or the rear section).
No user serviceable parts inside, refer servicing to qualified personnel.

This symbol, wherever it appears, alerts you to the presence of uninsulated dangerous voltage inside the enclosure-voltage that may be sufficient to constitute a risk of shock.

This symbol, wherever it appears, alerts you to the important operating and maintenance instructions in the accompanying literature. Please read the manual.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this equipment near water.
- 6) Do not use near any heat sources such as radiators, heat resistors, stove, or other equipment that produce heat.

CAUTION

**RISK OF EXPLOSION IF BATTERY IS REPLACED
BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING
TO THE INSTRUCTIONS**
