Re: FCC ID: 2ADDB-NIPRO-01

To Whom It May Concern:

The following application is submitted on behalf of our client, Nipro Diagnostics, Inc., for evaluation of their model BCM20736S for a Class II Permissive Change under FCC Part 15.247.

The FCC ID: 2ADDB-NIPRO-01 is a stand-alone limited module. The purpose of the Class II Permissive Change is to add a new host configuration. There are no hardware or power changes on the product.

The FCC ID: 2ADDB-NIPRO-01 was tested for radiated emissions to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
