

Applicant : Secugen Corporation

FCC ID: 2ADE9HU20ASFWB

So, We, Secugen Corporation confirm that when equipped, the distance between antenna and one's hand is 10 mm.

EUT is marketed without case, so when the EUT is mounted with case, it has to be to maintain a distance of 10 mm from one's handsurface.

A new model will be available in the future, but the minimum distance will be remain at 10 mm between the product and the body
