SUBJECT: Class II Permissive Change for FCC ID: **2ADEFAT-CD1**

The intention of this application is to enable the modular FCC ID: **2ADEFAT-CD1**, original granted on **01/26/2022** to be integrated in **Airtame Hub, AT-CD1**.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: **2ADEFAT-CD1** was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment.

Except for the change above, the design, hardware and implementation are exactly same with original.

Sincerely yours,

**Attila Sukosd**
