

March 23, 2018

To whom it may concern,

This application is to support the certification of 3D Systems Mercury Radio Frequency Identification (RFID) module, FCC ID: 2ADGF-MERCURY. The module incorporates technology to recognize proprietary containers and materials for 3D Systems printers. The RFID read/write module is used in conjunction with tags, operating at 13.56 MHz. The frequency is not adjustable. The communication range is up to a few inches.

The application is for original certification. The subject device was tested and found compliant to FCC 15.225:2017 and FCC 15.207:2017.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jaime Smith'.

Jaime Smith  
EMC Engineer
