

### ProJet® 6000 and 7000 Antenna Info

- Describe compliance of the device with the antenna requirements of paragraph 15.203 of the FCC rules: The Skyetek M2 antenna boards are securely mounted on a grounded sheet metal panel outside of the print tray and material cart compartment. An area of metal is removed beneath the antenna as to not interfere with the RF operation. Antenna replacement must be performed by a qualified 3D Systems technician. The antenna is internal to the product and that disassembly of the product would be required to even get to it.

### Consumable Material Drawer Assembly

A list of antennas to be used with the transmitter. Include manufacturer, model number, gain (dBi), and description:

3D Systems: Skyetek M2 antenna, Number SP-AN-04-2.0, 2 turn loop antenna, antenna impedance is 50 ohms
