Re: Class II permissive change authorization for RF exposure collocation
evaluation

We Microchip Technology Inc. are authorizing Michael Wieckowski of Heatworks Technologies Inc. to apply a Class II permissive change for our module with FCC ID: 2ADHKATWINC1500. The purpose of this permissive change filing is to demonstrate compliance with the RF exposure limits when this module is collocated with a 2nd module with FCC ID: WAP2011 in the end products of Heatworks Technologies Inc.

We Microchip Technology Inc. are aware of the responsibility for any issues with this C2PC and will assist Heatworks Technologies Inc. to resolve any issues of non-compliance or interference.

Sincerely

A handwritten signature in blue ink that reads 'Steve Caldwell'.

Steve Caldwell
Vice President
Wireless Solutions Group
Microchip Technology Inc.
