Models: WLR089U0, WLR089UC

Declaration on Similarity

We herewith confirm that the RF Transmitter Module is Electrically Identical for the models listed above. Both models are identical to each other in the circuit design, PCB layout and use of component sources except for the change highlighted in table below. The output power configuration is fixed by software settings; No change in the RF section of the SiP.

The Trust&GO/Flex is a pre-configured and pre-provisioned secure element of Microchip's family of security focused devices. The module variants integrate Trust&GO/Flex option.

Model No.	Module Description
WLR089U0	Module with u.FL Connector for External Antenna
WLR089UC	Module with u.FL Connector for External Antenna and Trust&GO/Flex
