Declaration on Similarity

All models are identical to each other in the circuit design, PCB layout and use of component sources except for the change highlighted in table below. The output power configuration is fixed by software settings; No change in the RF section of the SoC.

The Trust&GO is a pre-configured and pre-provisioned secure element of Microchip's family of security focused devices. The module variants integrate Trust&GO option. The differences are in the model numbers and in the digital data interface.

Model Number	Description
WBZ450PE	Module with PCB antenna
WBZ450PC	Module with PCB antenna and Trust&Go chip
WBZ450UE	Module with u.FL connector for external antenna
WBZ450UC	Module with u.FL connector for external antenna and Trust&Go chip
