Re: FCC Class II Permissive change for FCC ID: 2ADHKWBZ451

Dear Examiner,

This is to request a Class II permissive change for FCC ID: 2ADHKWBZ451 originally granted on 04/01/2022

The major change filed under this application is:

Change #1: The resistors, capacities, inductors and crystal use higher operating temperature spec, new module part number is WBZ451PE-E. Some components change from 0201 to 0402 with slight layout changes but do not affect the RF part. Hence, only the output power and RSE retests in this application.

Change #2: PMN change to "Wireless MCU module with BLE 5.2 compliant and Zigbee 3.0 Radio"

Sincerely,

By:
