

User Manual

Thanks for choosing us!
This is a smart phone wireless charger that allows you to enjoy the fun of digital products easily.
Please kindly read the user manual before using and keep it for future reference.

FAST WIRELESS Charger

User Manual

Specification

Input: DC 5V/2A DC 9V/2A
Output: 5W; 7.5W; 10W
Conversion: 72% (Max)
Frequency: 110-205KHZ
Standard: Qi
Charging Distance: ≤10mm
Dimensions: 142mm*73mm*10mm
N.W: 185g

Applicable Devices

1. Devices support fast wireless charging: Samsung Galaxy S9/S9+, Note 8, S8/S8+, S7/S7 Edge, etc.
2. Devices support standard wireless charging: iPhone X, iPhone 8/8+, etc.

ROFI is one of the key brands of Moke International Group Ltd. And it is committed to create high-end fashionable products.

ROFI attracts excellent designers and R&D groups to develop high-end products with outstanding quality, which means telling people to enjoy more technology in normal life.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation
