Important Safety Precautions/Cleaning & Maintenance Instructions

When using your mini bluetooth speaker, basic safety precautions should always be followed, including the following:

1. READ ALL INSTRUCTIONS BEFORE USING YOUR MINI BLUETOOTH SPEAKER.
2. Never expose your mini bluetooth speaker to high temperatures, extreme cold, high humidity or any moisture or water.
3. In order to avoid the risk of electric shock, never attempt to open your mini bluetooth speaker or repair it without the assistance of certified professionals.
4. Your mini bluetooth speaker is not to be used by children or the infirm without suitable adult supervision.
5. Do not drop your mini bluetooth speaker, throw it, or subject it to strong impacts or physical trauma.
6. When charging, do not place your mini bluetooth speaker on flammable materials such as rugs, carpets or bedding.
7. Clean your mini bluetooth speaker using a soft, moist cloth or paper towel. Do not use harsh chemicals when cleaning your mini bluetooth speaker, and never submerge mini bluetooth speaker in water.

CAUTION Risk of Fire and Burns. Always Follow All Manufacturer's Instructions When Using.

CAUTION Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC STATEMENTS

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Compliance information: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
