

The equipment under test (EUT) is a 2.4GHz transceiver with 25 channels operating at 2410 - 2473 MHz. It is powered by 4.5V DC (3\*AAA batteries).

**Channel List:**

2410 2414 2415 2417 2418 2419 2421 2426 2429  
2430 2433 2434 2439 2441 2442 2446 2450 2458  
2462 2464 2465 2466 2469 2470 2473

**Modulation Type:** GFSK

**Antenna Type:** Integral antenna

**TX FUNCTION:**

- The functions of TX main ICs are mentioned as below.
- IC1 acts as MCU for system and gaming control and 2.4GHz RF module.
- IC2 acts as power regulator.
