What's Inside

Smart Bridge™

Power adapter

Ethernet cable

Features

- 1 LED status indicator
- 2 Power adapter jack
- 3 Ethernet port

Let's get
started.

Meet Your Smart Bridge™

Your Keen Home Smart Bridge connects your Smart Vents to the Internet, allowing control from your smartphone and integration with other connected devices.

Use as a Repeater

Additional Smart Bridges can be used as range extenders to improve the wireless performance of your Smart Vent System.

1 Download the Keen Home app

- a Download the Keen Home app
- b Create an account

2a Connect as a Smart Bridge™

- a Plug in the power adapter
- b Connect the Smart Bridge to your Wi-Fi router with an Ethernet cable
- c Enter the activation code in the Keen Home app

2b Set up as a Repeater

- a Move Repeater to desired location
- b Plug in the power adapter; do not use the Ethernet cable
- c Pair the Repeater with your existing Smart Bridge in your Keen Home app

Power adapter

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IC warning

- English:

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

- French:

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
