Unicycle Parameters

| Туре | Parameter | Parameter |
|--------------------------|------------------------|------------------------|
| Model | INMOTION SCV V5 | INMOTION SCV V5+ |
| Max Speed | 18km/h | 18km/h① |
| Distance per Charge | 15km | 35~40km② |
| Climbing Angle | 18° | 18° |
| Net Weight | 10.5kg | 11.5kg |
| Load Capacity | 120kg | 120kg |
| Overall Dimension | 409*478*147mm | 409*478*147mm |
| Battery Specification | 72V 2AH Lithium cells | 72V 4AH Lithium cells |
| Charging Requirements | AC 110~220V 50~60Hz | AC 110~220V 50~60Hz |
| Charging Time | About 1.5h | About 3.5h |
| Tire Type | 14" pneumatic tire | 14" pneumatic tire |
| Operating Temperature | -10° C ~ 40° C | -10° C ~ 40° C |
| Waterproof Rating | IP65③ | IP65③ |

- ①Speed measured based on driver weighing 70kg.
- ②Distance per charge measured based on 25° C operating temperature and 70kg load on a level road. Riding skill, operating temperature, road conditions, load and other aspects will affect distance per charge. Different vehicle models and battery models will also result in difference in distance per charge.
- ③IP65 waterproof and dustproof rating, means the unicycle can withstand splashing and pass through 30mm depth standing water without affecting performance.

How to Use

Connect to INMOTION APP

Open INMOTION APP (Bluetooth version),

Turn left or right by leaning on the pedal with your feet

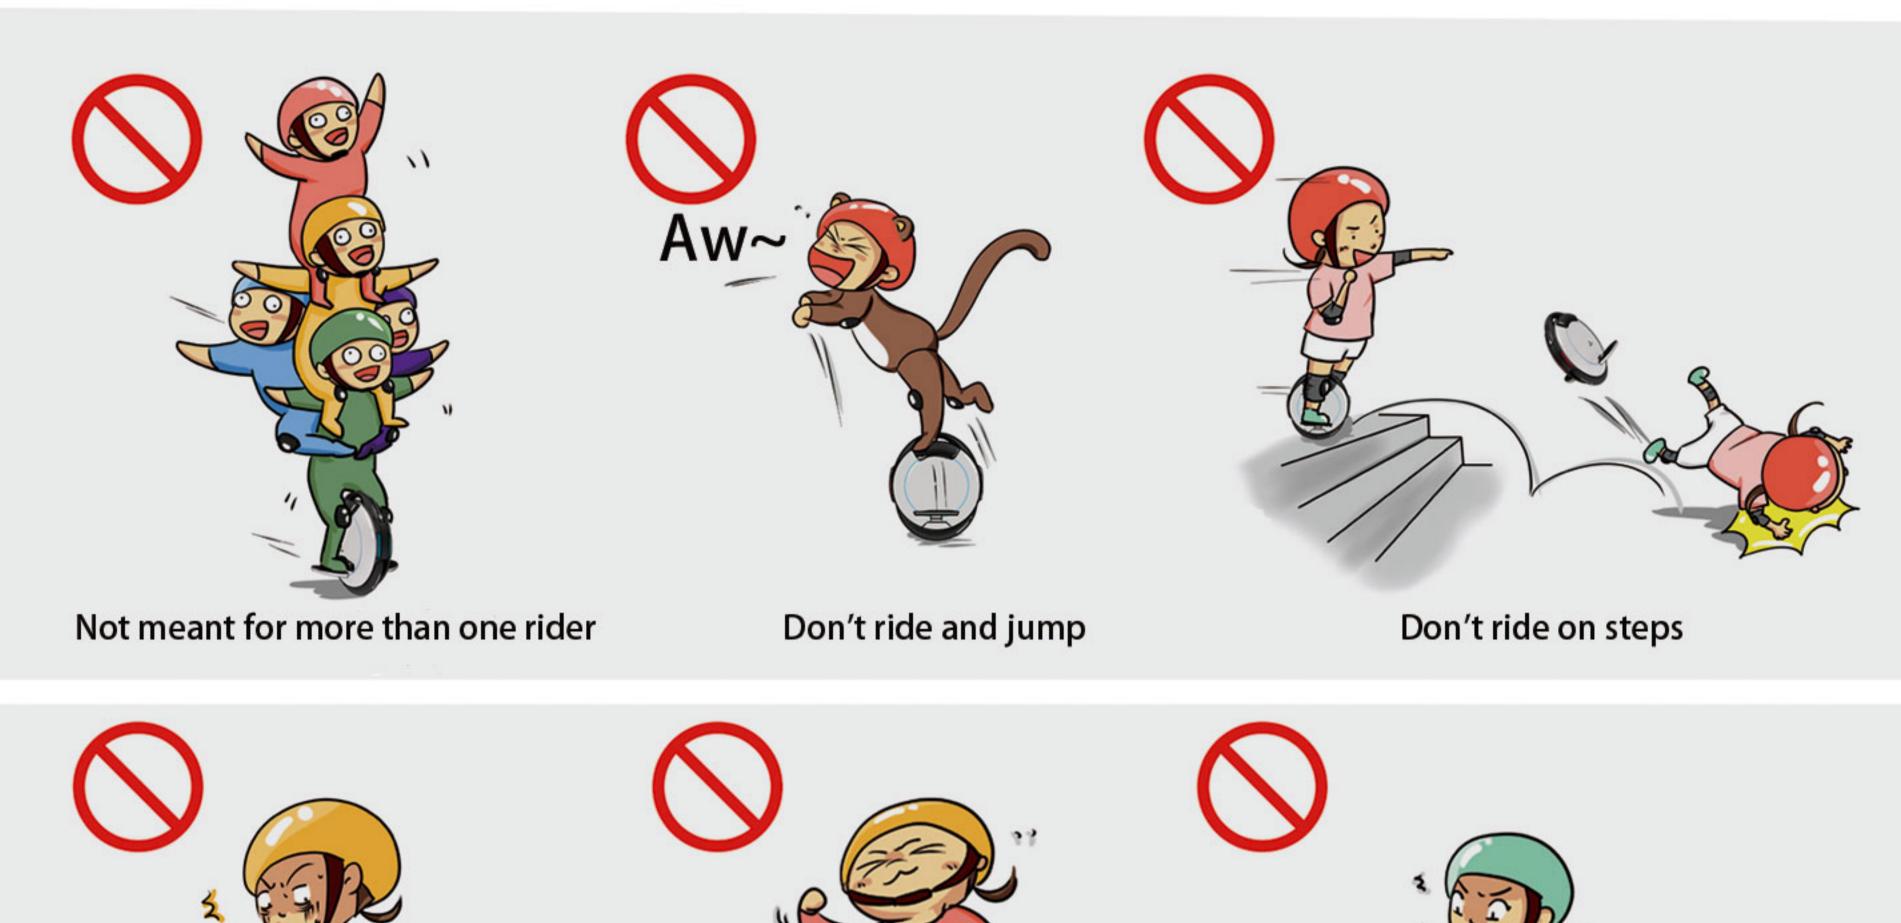

Default Bluetooth profile name is V5-XXXXXXXX, where XXXXXXXX is the last 8 digits of your SN Code. Pair with Bluetooth to directly connect your unicycle to the app.

(SN code is printed on the handle of the unicycle's body, warranty card, and product package box!)

INMOTION Technologies Co., Ltd www.imcsv.com 4000-1000-12 service@imscv.com

Notes:

Notes:

To ensure riding safety, the V5 comes with preset safe speed limit.

When V5 reaches speed limit, the user receives the following prompts:

- 1. The pedal inclines 5~20
- 2. Alarm beeps

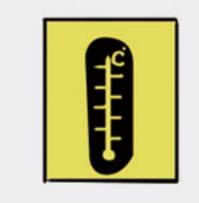

Please slow down when you sense any of the above!

If you have any questions,

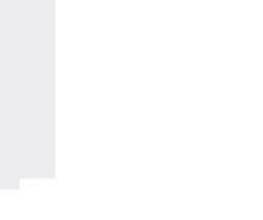

please ask customer service for help!

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
