① Insert the TF Card into the Slot (note the direction).

② Connect the Camera to mobile phone

③ Connect the USB cable with camera and Car adapter. When the car starts up, the camera will boot up automatically with video priority "HDMI".

④ Stick the plastic start onto the windscreen (note the position).

**4 Instructions for use**

1. App Download

For Android/IOS Apps, Please search for todayes in Google Play or App Store, download and install

2. Connect the Camera to mobile phone

Phone Settings — WLAN — Select wiSMART — Enter the Password 1234567890 to connect the camera AP. Search network list and the camera will appear in the list. Select the camera list.

For Android:

Launch Camera App. Click "x" to Share the camera — Select RoadEyes wiSMART in the WiFi list — Enter the Password 1234567890

Note: If Android, do not connect the camera WiFi in phone settings. If forgotten the password, press the reset button for a few seconds to reset the camera to factory settings. The initial password is 1234567890.

3. Note:

- Support up to 64GB TF Card. Clean it if necessary. Do not plug the TF card when the Camera is working.
- Press plug the USB cable in the 2.1A output of the car adapter.
- Press the power supply
- Press the remote button to camera

4. Take a photo or record video

Click the remote to automatically capture a photo. Switch on the "10s video" mode for continuous video to record 10 seconds video (5 seconds before and after the click action). To photo and video will be saved to the camera's internal memory. Camera will take a few seconds to be transferred into your mobile phone.

5. Photo album management and Share the photo

Check the Photo album in the camera. You can choose several photos to add to favorite, or delete, or share to social network.

6. End and share your story in the journey

Choose interesting photos you like click add and click the share icon to share them with social network such as facebook, twitter etc.

7. Pair the remote button to camera

If the remote snap doesn't work, press the button to check the indicate light. If the indicate light is still on, please enter the Camera settings — Remote — Select "Pair" — Press the button, and take the remote snap near the camera and press the button several times until the indicate light is off. If the indicate light is still on, the battery may have run down. Please open the rear cover of the remote snap and replace a new battery cell.

8. Other settings

Modify the general settings in App setting, including storage management, camera settings, and other settings. Connect the camera and modify the camera settings, including resolution, aspect ratio, frame rate, and other camera parameters, update firmware etc.

For frequently asked questions, please refer to the Help.

- When this product reaches its end of life, take it to a collection point designated by local authorities for the recycling of electronic equipment.

**6 Specifications**

1. Main hardware

CPU: 1.4GHzQuadCore 2.6GHz  
Processor: 1.4GHzQuadCore 2.6GHz  
Sensor: 10.0 Megapixel CMOS 1/3 inch CMOS Sensor  
Lens: F-2.8, 140°Wide Angle, F1.8

2. Technical Parameters

Wireless: WiFi 2.4 GHz  
Storage: Class 10 TF Card, 4GB-64GB  
Power: DC 12V, 1A, 12V 1A, 12V 1A  
G-Sensor: Three axis acceleration sensor, collision latch, APP  
Battery: Lithium battery, with a 2500mAh polymer Lithium battery  
Dimensions: 100\*50\*25mm  
Camera pixel: 2592\*1520  
RAM: 2GB/8GB

User's Manual

#### FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Reorient or relocate the receiving antenna.
- Reorient or relocate the receiving antenna.
- Consult the dealer or an experienced radio/TV technician for help important announcement

#### Important Note:

##### Radiation Exposure Statement

##### recSMART

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

##### recSNAP

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

#### IC Statement

- English: This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).
- French: Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

##### Radiation Exposure Statement

##### recSMART

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

##### recSNAP

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled

environment.

Déclaration d'exposition aux radiations
