Product Name	Ace A3																																																					
Bluetooth Chipset	BK3266																																																					
Low Power Off Voltage	3.3V																																																					
Working Time	Approximate 4 Hours																																																					
Standby Time	Approximate 80 Hours																																																					
Charging Time	Under 1.5 Hours																																																					
Charging Current	40mA																																																					
Duration When Power Off Automatically Without Pairing	5 Minutes																																																					
Power Status Indication	IOS system displays earphone power status																																																					
Voice Notification	Prompt Tone																																																					
Operation Temperature	0 ~ 45°C																																																					
Storage Temperature	-20 ~ 70°C																																																					
Earphones Status	Indicator Light Status																																																					
Power On	After white flash 3 times and then change to be red and white light flash																																																					
Power Off	the red light flashed three times before it went out																																																					
Connected	the light goes off																																																					
Pairing Status	Red and white flash alternately																																																					
factory data reset	red and white flash slowly 3 times

Specifications are subject to change without notice. Model names and the availability of particular products may vary by region.</p> <p>CAUTION: 1. Risk of explosion if battery is replaced by an incorrect type, dispose of used batteries according to the instructions. 2. The product shall only be connected to a USB interface of version USB2.0. 3. Adapter shall be installed near the equipment and shall be easily accessible. 4. EUT Temperature: 0°C ~ 45°C (Standalone), 0 ~ 40°C (With Parts). 5. To prevent possible hearing damage, do not listen at high volume levels for long periods.</p>  <p>Figure 1-Warning label(IEC 60417-6044)</p> <p>Operating Frequency: BT: 2402-2480MHz Modulation mode: GFSK, π/4-DQPSK, 8DPSK (BT) GFSK (BLE) CE RF output power: BT: -6 ~ +4dBm</p>	<p>EU DECLARATION OF CONFORMITY in accordance with Annex VI of Directive 2014/53/EU of the European Parliament and of the Council 1. For the following Radio equipment: Model: A3 Product: Wireless Earphone Trade name or Brand: TECNO Software / Hardware number: V0.1/ V1.1 2. Name and address of the manufacturer or his authorised representative: Manufacturer: TECNO MOBILE LIMITED Address: ROOM 604 6/F SOUTH TOWER WORLD FINANCE CTR HARBOUR CITY 17 CANTON ROAD TST KL. 3. This declaration of conformity is issued under the sole responsibility of the Manufacturer. 4. Object of the declaration (identification of the radio equipment allowing traceability; it may include a colour image of sufficient clarity where necessary for the identification of the radio equipment); 5. The object of the declaration described above is in conformity with the relevant Union harmonization legislation: Directive 2014/53/EU (RED) 6. References to the relevant harmonised standards used or references to the other technical specifications in relation to which conformity is declared: Article 3.1a Health: EN 62479:2010 Article 3.1a Electrical Safety: EN62638-1:2014+A11:2017 Article 3.1b: ETSI EN 301 489-1 V2.2.3 (2019-11) Draft ETSI EN 301 489-17 V3.2.2 (2019-12) Article 3.2: ETSI EN 300 325 V2.2.2 (2019-07) 7. Notified Body Name: MET Laboratories, Inc.</p>	<p>Notified Body Number: 0980 Notified Body Assessment Performed: Module B/C on Article 3.1a, 3.1b, 3.2 and 3.3 Technical File Identification Number: N/A 8. Where applicable, description of accessories and components, including software, which allow the radio equipment to operate as intended and covered by the EU declaration of conformity: User instructions are provided in the User Manual. The Software and Hardware versions are specified above. 9. Additional information: Referring to Article 10.2 of the Directive, this equipment is so constructed that it can be operated in all Member States, without infringing applicable requirements on the use of radio spectrum. Referring to Article 10.10 of the Directive, there are no restrictions on putting this equipment into service or of requirements for authorisation of use. Please refer to the User Manual for details.</p> <p>On behalf of:</p> <p>Manufacturer: TECNO MOBILE LIMITED Address: ROOM 604 6/F SOUTH TOWER WORLD FINANCE CTR HARBOUR CITY 17 CANTON ROAD TST KL. (place and date of issue): Shenzhen, 2019-12-25 (name, function): Yiting Luo / Manager (signature): <i>Yiting Luo</i></p>	<p>FCC Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.</p>	<p>RF Exposure Statement The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p>	 <p align="center">www.tecno-mobile.com</p> <p align="center">Ace A3</p>	<p align="center">TECNO</p> <p align="center">USER MANUAL</p> <p align="center">Ace A3</p>
