

# IMPACT INTELLIGENCE SYSTEM SET UP INSTRUCTIONS

- Lenovo Yoga 2 Pro (includes i1 Biometrics Event Software)
- S0001 Side Line Receiver (SLR)
- Tripod SLR stand

1. Remove and set up tripod raising mast to approximately 6 feet high.
2. Place SLR onto tripod through hole in base of SLR.
3. Secure SLR to tripod mast by tightening thumb screw.
4. Place tripod with attached SLR at midfield such that the domed end points directly at the field of play.
5. Unwrap attached USB cord from SLR and insert into Yoga laptop.
6. Power on Yoga laptop.
7. Launch i1 Biometrics Event Software by clicking on desktop icon.

Per FCC 15.19(a)(3) and (a)(4) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Per FCC 15.21, Changes or modifications made to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Per RSS-Gen, Section 8.4, this device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Par RSS-Gen, la section 8.4, cet appareil est conforme avec Industrie Canada exempts de licence standard RSS (s). Son fonctionnement est soumis aux deux conditions suivantes: (1) ce dispositif ne doit pas causer d'interférences et (2) cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
